Grasping the good opportunities that Binhai offers in building her development mechanism, TEDA takes manufacturing industry and a strong talent pool as the cornerstone of industrial synergy. The TEDA government plays a guiding role in bringing in industrial talents, while the market allocates the resources at best. Investors make their own decisions in choosing the talents they need based on contract management. In this way, we can introduce the talents and give them a nice working and living environment to keep them stay in TEDA.
