FUJIAN OVERVIEW

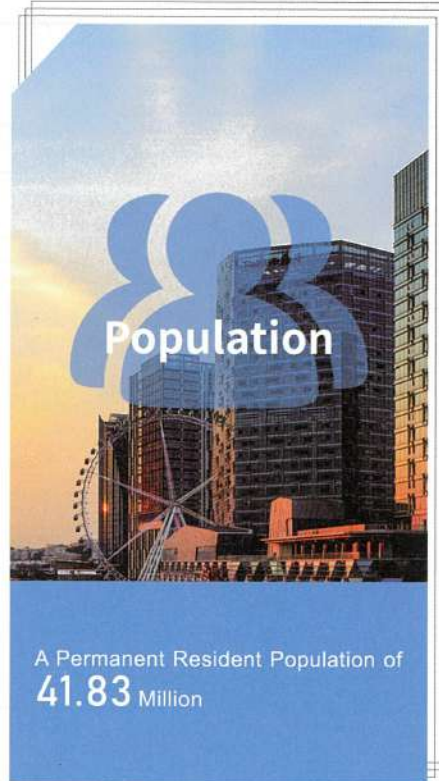

Geographical Location

Area

A Territorial Area of **124,000** km²
A Sea Area of **136,000** km²

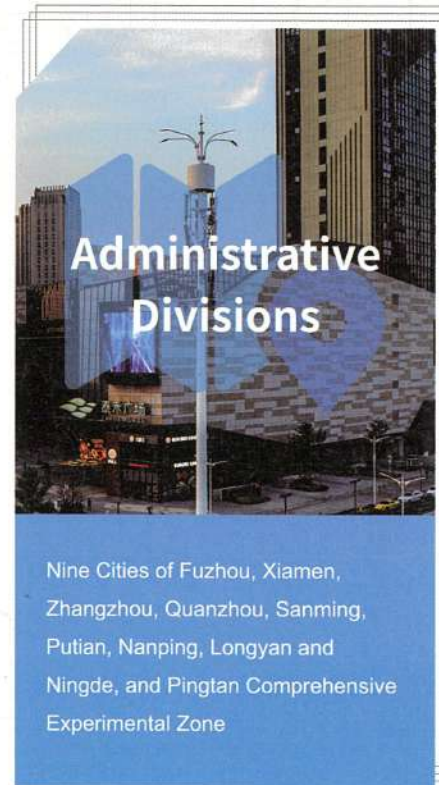

The infographic features a stylized blue mountain range icon above the word 'Area'. The background is a sunset over a city skyline and a body of water.

Population

A Permanent Resident Population of
41.83 Million

The infographic features a stylized blue icon of three people above the word 'Population'. The background is a city skyline at sunset with a Ferris wheel.

Administrative Divisions

Nine Cities of Fuzhou, Xiamen, Zhangzhou, Quanzhou, Sanming, Putian, Nanping, Longyan and Ningde, and Pingtan Comprehensive Experimental Zone

The infographic features a stylized blue map of Fujian above the title. The background is a city street scene with a modern building and a street lamp.

Located on China's southeastern coast, Fujian is one of the country's main gateways to the Asia-Pacific region.

Logistics and Transportation

Ports

140+ Ports
Container Shipping Routes

The four major coastal ports of Fujian are the Ports of Xiamen, Fuzhou, Meizhou Bay, and Quanzhou. The cargo throughput of each of the former three ports exceeds 100 million tons. Fujian has container shipping routes reaching over 140 ports in more than 50 countries and regions.

Airports

44.783 Million
Person-trips
Annual Passenger Throughput

Fujian has six operational civil airports: Fuzhou Changle International Airport, Xiamen Gaoqi International Airport, Quanzhou Jinjiang International Airport, Nanping Wuyishan Airport, Sanming Shaxian Airport, and Longyan Guanzhaishan Airport. Fujian is connected to cities across the world. In 2023, civil aviation passenger throughput reached 44.783 million person-trips.

Railways

4,722 Kilometers
Railway Operating Mileage

In 2023, Fujian had total operating railways of 4,722 km. The density of the railway network is twice the national average and a closed loop of inter-city express railway has formed.

Highways

115,645 Kilometers
Highway Operating Mileage

In 2023, operational highways in Fujian reached 115,645 km, and a total expressway operating mileage of 6,169 km. It ranks third in China in comprehensive road network density, with highways accessible within a 15-minute drive from any county or city within the province and within a 30-minute drive from 82% of its land-based towns.

Economic Level

In 2023

Fujian Province's Regional GDP

RMB **5.4355** Trillion

An Increase of **4.5%** YoY 

Ranking **8th** in China

Per-capita GDP

RMB **129,865**

An Increase of **4.5%** YoY 

Total Import and Export Volume of Goods

RMB **1,974.35** Billion

Per-capita Disposable Income

RMB **56,153**

Urban Residents

An Increase of **4.3%** 

Per-capita Disposable Income

RMB **26,722**

Rural Residents

An Increase of **6.9%** 

Foreign Investment

In 2023

By the end of 2023 Fortune Global 500 companies had invested in a total of **229** projects in Fujian province.

Manufacturing Industry Delivered an Eye-Catching Performance in Attracting Investment

- ▶ The foreign capital actually utilized in Fujian's manufacturing industry was high, rising **14%** ↑
Accounting for **45.6%** of the total
- ▶ Within which the high-tech manufacturing sector rose **35.8%** ↑

Foreign Investment

Foreign Investment Plays a Vital Role in Driving Economic and Social Development

Import and Export Value
 1/5

As one of the earliest provinces to implement the reform and opening-up policy, Fujian has spearheaded opening-up in China. In 2023, foreign-funded enterprises accounted for approximately 1% of the total number of enterprises in the province and they were responsible for around 20% of the province's import and export volume and tax revenue, and roughly 10% urban jobs in its non-private legal entities. For industries above the designated size, foreign-funded enterprises' added value and sales output value account for about 25% of the total.

Tax Revenues
 1/5

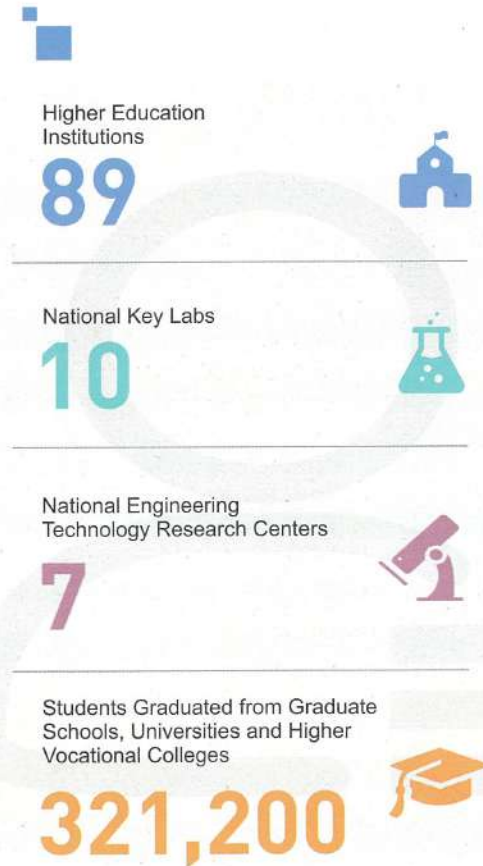

Urban Jobs in Its Non-private Legal Entities
 1/10

Foreign-funded Enterprises' Added Value and Sales Output Value for Industries above the Designated Size
 1/4

Human Resource

Fujian is home to 89 higher education institutions and has established 38 provincial-level industrial technology research institutes. There are 10 national key laboratories, 2 state key laboratories, 7 provincial innovation laboratories, 267 provincial key laboratories, 7 national engineering technology research centers, 527 provincial engineering technology research centers, and 220 modern provincial R&D institutions in the province. In 2023, 321,200 students graduated from graduate schools, universities, and higher vocational colleges in Fujian.

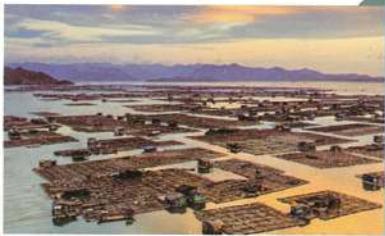

Living Environment

Natural Resources

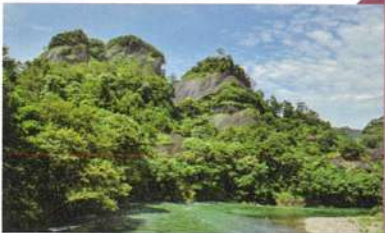

Continental Coastline

Fujian boasts the second longest continental coastline in China. The coastline, which is about **258** km in length, is a natural coastline suitable for building 10,000-ton and above berths, topping the whole country.

Marine Products

It ranks **1st** in China in terms of per capita availability of marine products. The province also ranks **1st** in eastern China in terms of hydropower resources.

Forest Coverage

Fujian's forest coverage, which is **65.12%** has ranked first in China for 45 consecutive years.

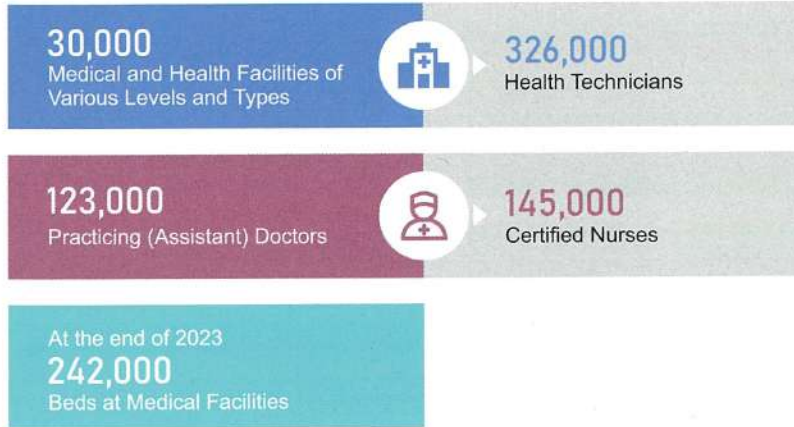

World Heritage Sites

In addition, Fujian has **5** world heritage sites that boast stunning scenery, including Mount Wuyi (a world cultural and natural heritage site), the Island of Kulangsu (a world cultural heritage site), and the Fujian Tulou fortified earth buildings (a world cultural heritage site).

Living Environment

Medical and Health Infrastructure

Fujian has

Medical and Health Infrastructure

By the end of 2023, Fujian had

Living Environment

International Schools

In 2023

1,705

Preschools, Primary and Middle Schools That Can Enroll and Cultivate International Students

13,661

Number of International Students at School

INTERNATIONAL SCHOOLS

48 higher education institutions in the province have recruited international students, including 26 undergraduate colleges and universities and 22 higher vocational colleges. 6,973 international students have been enrolled in institutions of higher learning in the province.

Advantages of Multiple Functions

Fujian is one of the provinces in China to enjoy many preferential, centralized policies. The province proudly hosts the Xiamen Special Economic Zone, the 21st-Century Maritime Silk Road, the National Ecological Civilization Pilot Zone, the China (Fujian) Pilot Free Trade Zone, the Pingtan Comprehensive Experimental Zone, the Fuzhou New Area and the Fuzhou-Xiamen-Quanzhou National Innovation Demonstration Zone.

Resources Related to Taiwan, Overseas Chinese, and Hong Kong and Macao Compatriots

Overseas Chinese of Fujian Origin

Fujian is famous for its overseas Chinese, with

15.8 million overseas Chinese of Fujian origin residing all over the world.

Taiwan, Hong Kong and Macao Compatriots of Fujian Origin

There are more than **1.2** million Hong Kong and Macao compatriots of Fujian origin.

More than **80%** of Taiwanese have their ancestral home in Fujian.

02

ECONOMIC DEVELOPMENT

In recent years, Fujian Province has undergone a comprehensive overhaul of its industrial framework, expediting the establishment of a contemporary industrial ecosystem. The province strives to develop electronic information, advanced equipment manufacturing, modern textiles, and clothing into trillion-level pillar industries. Priority will be given to the development of strategic emerging industries such as new energy, new materials, biomedicine, and new medicine. We encourage traditional competitive industries to embrace digital and intelligent transformation, thus enhancing the core competitiveness of our manufacturing industry.

Key Industries

Electronic Information

In 2023, electronic information enterprises above the designated size in Fujian achieved a total operating revenue of RMB 985 billion, a YoY increase of 0.5%, ranking 6th in China.

Investment Attraction Focus

Integrated Circuit

Fujian will develop the characteristic integrated circuit design industry, fostering a synergy between chip design and practical application. With a keen focus on R&D in next-generation IT application chips, particularly for smart IoT, Fujian is committed to elevating the standard of chip design within the consumer electronics sphere. Fujian will focus on attracting and nurturing high-end chip manufacturing, actively promoting the research, development, and industrialization of cutting-edge packaging and testing technologies, including system- and wafer-level packaging. This initiative aims to bolster the local ecosystem's capabilities in providing comprehensive support and services for the integrated circuit materials and equipment sector.

Leading Enterprises

Sanan IC, United Semi, Silan, Rockchip, SigmaStar, Quliang Electronics Co., Ltd., Tongfu Microelectronics Co., Ltd., etc.

New Displays

With the goal of building a "strong display province", Fujian is fast-tracking the development and industrialization of groundbreaking display innovations, including Mini/Micro-LED, holographic 3D, and laser displays. By broadening the use of Mini/Micro-LED across various sectors such as automotive, retail, smartphones, and micro-displays, Fujian aims to deepen the integration and versatility of new display technologies and increase the added value of products.

Leading Enterprises

TPK Advanced Solutions Inc., TPK Touch Solutions (Xiamen) Inc., AUO, TPV Electronics (Fujian) Co., Ltd., BOE, Tianma Microelectronics Co., Ltd., etc.

Key Industries

Computer and Network Communications

Fujian will vigorously develop next-generation mobile devices with a strong emphasis on 5G technology. The province is committed to ramping up the domestic manufacturing of complete units and servers, while also welcoming a consortium of ecological partners to foster a harmonious progression of essential parts and core components. The province will expedite the innovation of communication equipment and terminal products, including 5G micro base stations, VR/AR technologies, and intelligent wearable devices.

Leading Enterprises

Fujian Star-net Communication Co., Ltd., Dell, Fujian Guanrui Electronics Technology Co., Ltd., Fujian Newland Communication Science Technology Co., Ltd., Zhangzhou Zhongke Zhigu Technology Co., Ltd., Inspur Group (Xiamen), Digital China KunTai, Fujian Hai Xia Xing Yun Information Technology Co., Ltd., Fujian Centerm Information Co., Ltd., etc.

LED

Fujian will focus on the development of epitaxial wafers, the R&D of chips, and the latest advancements in graphene, OLED, UV, and deep UV technologies. The province is committed to collaborative efforts in high-performance packaging and is set to propel the integrated development of LED and emerging display sectors forward, enriching the entire product value chain. Furthermore, Fujian is dedicated to integrated and secondary innovation of new products and projects and designing and producing mid-to-high-end, bespoke commercial displays and lighting solutions.

Leading Enterprises

Fujian San'an Group Co., Ltd., Xiamen Changelight Co., Ltd., LEEDARSON, YANKON, Xiamen Topstar Co., Ltd., Xiamen Longstar Lighting Co., Ltd., etc.

Key Industries

Advanced Equipment Manufacturing Industry

By the end of 2023, there were 4,623 enterprises above the designated size in the machinery industry (including automobiles and marine) in Fujian, including 419 large and medium-sized enterprises, with operating revenue of RMB 1163.74 billion and a total profit of RMB 95.529 billion, a year-on-year increase of 6.5% and 19.7%, respectively.

Investment Attraction Focus

Intelligent Equipment Manufacturing

Relying on urban areas such as Fuzhou, Xiamen, Quanzhou, and Longyan, Fujian will boost the concentrated development of the intelligent manufacturing equipment to establish an intelligent manufacturing equipment industrial system dominated by intelligent special equipment based on key core equipment components and fueled by intelligent general equipment.

Leading Enterprises

Longking, Taikoo, Fujian Nebula Electronics Co., Ltd., Fujian Jilong Machine TECHNOLOGIES Co., Ltd., Fujian Weino CNC Co., Ltd., Xiamen Yangsen Nc Equipment Co., Ltd., etc.

Automobile Manufacturing Industry

Fujian is set to upscale its passenger car sector, optimize its bus sector, and refine its special-vehicle sector while simultaneously enhancing the development of its automotive industrial parks, including the production base of SAIC Motor in Ningde, King Long Motors' new energy bus base in Longhai, Minhou Qingkou Automotive Industrial Park, and Sanming Puling Automobile Industrial Park. In addition, the province is fostering the advancement of intelligent connected vehicles and the FCEV industry in regions that provide an environment conducive for such innovative developments.

Leading Enterprises

Production base of SAIC Motor in Ningde, Fujian Benz Automotive Co., Ltd., Soueast-Motor, Xiamen King Long Motor Group Co., Ltd., Fujian Longma Environmental Sanitation Equipment Co., Ltd., etc.

Key Industries

Shipbuilding and Offshore Equipment Industry

Fujian focuses on the construction of state-of-the-art vessels, including deep-sea mining ships, cruise ships, and yachts. The province is actively promoting the growth of offshore wind power equipment and the establishment of specialized industrial bases (parks), such as the Fujian Three Gorges Offshore Wind Power International Industrial Park. Fujian is committed to enhancing the sophistication of marine power batteries, energy management systems, and energy density solutions. This initiative aims to expedite the development of electric maritime vessels and bolster the domestic market penetration rate of electric ships.

Leading Enterprises

Fujian Mawei Shipbuilding Ltd., Xiamen Shipbuilding Industry Co., Ltd., Fujian Southeast Shipyard, etc.

Construction Machinery Industry

Fujian is strategically cultivating industrial clusters in Xiamen, Longyan, and Quanzhou, with a concentrated effort on advancing the production of construction machinery such as loaders, excavators, forklifts, concrete mixers, and brick-making machines. The province is motivating flagship engine manufacturers to lead collaborative innovation efforts among supporting producers, aiming to overcome challenges in developing engines, high-pressure hydraulic components, and other crucial accessories. This initiative addresses and resolves critical bottlenecks and breakpoints in the industrial chain.

Leading Enterprises

Xiamen Engineering Machinery Co., Ltd., Linde (China) Forklift Truck Co., Ltd., Lonking Holdings Limited, Fujian Jingong Machinery Co., Ltd., Quangong Machinery Co., Ltd., etc.

Electrical and Electrical Appliance Industry

Fujian focuses on enhancing the impetus of its key enterprises, fostering product innovation, and guiding enterprises to eke out a foothold in the midstream and upstream of the industry chain. The province is diligently constructing the Mindong electromechanical industry cluster and establishing robust production bases for power transmission, transformation, and control equipment in Fuzhou and Xiamen while developing wire and cable manufacturing bases in Fuzhou and Nanping, as well as power engineering and electrical production facilities in Zhangzhou and Quanzhou.

Leading Enterprises

Kehua Data Co., Ltd., ABB, Schneider Electric, Fujian Nanping Sun Cable Co., Ltd., Citychamp Dartong Co., Ltd., etc.

Key Industries

Petrochemical Industry

The petrochemical industry is mainly distributed in the "two bases and one special area" of (Meizhou Bay and Gulei Petrochemical Base, and Jiangyin New Chemical Materials Special Area) in Quanzhou, Zhangzhou, Fuzhou, and Putian and the Kemen New Chemical Materials Industrial Park. In 2023, the operating revenue of 1,042 petrochemical enterprises above the designated size across the province rose 5% over the last year to RMB 515.12 billion.

Investment Attraction Focus

Manufacturing of Basic Chemical Raw Materials

While using the basic chemical raw materials provided by the refining and chemical integration projects in the province and the advantages of coastal locations, we will make efforts to obtain overseas light hydrocarbon resources, develop imported light hydrocarbon cracking to ethylene and propane dehydrogenation to propylene, promote the diversified development of raw materials, and enrich the sources of olefin raw materials.

Leading Enterprises

Fujian United Petrochemical Co., Ltd., Sinochem Quan Zhou Petrochemical Co., Ltd., Fujian FuHaiChuang Petrochemicals Co., Ltd., Fujian Tianchen Yaolong New Materials Co., Ltd., Fujian Shen Yuan New Materials Co., Ltd., Fujian Eversun Technology Co., Ltd., Fujian Billion Petrochemicals Co., Ltd., Wanhua Chemical (Fujian) Co., Ltd., etc.

Manufacturing of Synthetic Materials

Fujian will make full use of its advantages in advanced mechanical equipment, electronic information, chemical fibers, and plastic processing industries to accelerate the development of high-end chemical downstream materials, including high-performance polyolefins, high-performance fluorine new materials, special engineering plastics, special synthetic rubber, high-performance fibers, and functional membrane materials.

Leading Enterprises

Fujian United Petrochemical Co., Ltd., Sinochem Quan Zhou Petrochemical Co., Ltd., Fujian FuHaiChuang Petrochemicals Co., Ltd., Fujian Billion Petrochemicals Co., Ltd., Zhangzhou CHIMEI Chemical Co., Ltd., Fujian Tianyuan Chemical Co., Ltd., Fujian Zhongjing Petrochemical Co., Ltd., Fujian Province Zhongjiang Petrochemical Co., Ltd., Fujian ZhongJin New Materials Co., Ltd., Fujian Sinolong Industrial Co., Ltd., etc.

Key Industries

Fine Chemical Industry

We will concentrate on attracting projects in electronic-grade special gases, wet electronics, lithium battery additives, and various high-value-added fine chemical sectors.

Leading Enterprises

3Trees Paint, Xinhe New Material Co., Ltd., Fujian Xinzhanwang Group Co., Ltd., Fujian Chunda Chemical Co., Ltd., Ecogreen Chemicals (Zhangzhou) Co., Ltd., Fujian Zhongshan Chemical Co., Ltd., Fujian Tianjiao Chemical Materials Co., Ltd., JIAHUA CHEMICALS INC., Zhangzhou Longwen Agricultural Chemical Co., Ltd., Fujian Sino-dashing Biological Engineering Co., Ltd., etc.

Plastic Product Industry

The development of new high-grade automotive plastics, packaging materials, agricultural pipes, and medical materials will be extended. The design and production of plastic machinery and molds will be strengthened. In addition, the recycling and treatment of waste plastic products and the development and utilization of degradable plastics will be increased.

Leading Enterprises

Intex Industrial (Xiamen) Co., Ltd., Forop, Xiamen Changsu Industrial Co., Ltd., Chahua Modern Household Products Co., Ltd., Fujian Hengjie Plastic Industry New Material Co., Ltd., Fujian Shidai Packaging Materials Co., Ltd., SIJIA TEX, Fuzhou Yexia Plastic and Leather Co., Ltd., Fujian Sansheng Industrial Co., Ltd., Fujian Newchoice Pipe Technology Co., Ltd., etc.

Chemical Fiber Manufacturing

We will focus on the development of basic, strategic, and cutting-edge fiber preparation and application technology. We will accelerate the development of advanced functional, high simulation, bio-based basic fibers, high-performance T1000, M55 carbon fibers, para-aramid, and other key strategic fibers, as well as nanofibers, smart fibers, biomedical, and other cutting-edge fibers. In addition, the proportion of differentiated, functional, and high-value-added products will be increased.

Leading Enterprises

Fujian Jinlun High Fiber Co., Ltd., Billion Holdings, HSCC, Fujian Eversun Technology Co., Ltd., SATERI, Fujian Xinsen Synthetic Fiber Technology Co., Ltd., etc.

Key Industries

Modern Textile and Garment Industry

Fujian is a major province within the textile, footwear and clothing industries. It has formed a relatively complete industrial chain of chemical fiber, spinning, weaving, dyeing and finishing, clothing, home textile, industrial supplies, and footwear enterprises. In 2023, the operating revenue of the textile, footwear, and clothing industry in the province reached RMB 644.057 billion. Specifically, the operating income of the textile and clothing industry registered RMB 222.644 billion, and that of the footwear industry was RMB 239.956 billion.

Investment Attraction Focus

Cotton Textile Weaving

We will focus on the development of cotton combed, blended, core-spun yarn, color spun yarn, and two-component and two-color yarn series of products. We will develop functional yarns of series and stock-solution colored chemical fibers, staple fibers, and filaments. This approach will accelerate the development of new functional clothing and industrial fibers to promote green chemical fiber raw materials such as bio-based fibers and terminal products such as knitted textiles and three-dimensional-formed knitted fabrics. These products will be used in the medical and healthcare sectors as well as the knitting industries.

Leading Enterprises

Fujian Changyuan Textile Co., Ltd., Fujian Changle Jinyuan Textile Co., Ltd., Fujian Huafeng New Material Co., Ltd., Fujian Jinyuan Textile Co., Ltd., Fujian Jingwei Group Co., Ltd., Fujian Xinhuyuan Technology Group Co., Ltd., etc.

Dyeing and Finishing

We will introduce technologies and applications, including digital and intelligent printing and dyeing, clean production dyeing and finishing, new dyeing and composite fabric processing, and intelligent bobbin dyeing. Technologies and applications that reduce water use, save energy with zero wastewater discharge, and reuse water will also be promoted.

Leading Enterprises

Fujian Fynex Textile Science & Technology Co., Ltd., Suntion (China) Group Co., Ltd., Fujian Donglong Knitting & Textile Co., Ltd., Fujian Honggang Textile Technology Co., Ltd., etc.

Key Industries

Clothing

We will focus on sports, leisure, and creative clothing to accelerate the development of a new generation of fashion to accelerate the upgrade and innovation of functional new clothing. This will include functional and smart clothing. We are committed to advancing the research, development, and deployment of innovative functional clothing materials highlighting safety, protection, health care, comfort, and hygiene. We aim to broaden the spectrum of applications for such innovative, functional garments.

Leading Enterprises

JOEONE, Septwolves, Qipai, JORYA, Lilanz, Cabbeen, Qicaihu, TRIES, Fuzhou Chunhui Clothing-Making Co., Ltd., FASHION-FLYING, etc.

Industrial Textile Products

We will expand the introduction of the industrial chain of textile fiber production, non-woven, processing equipment, and finished product applications. We will accelerate the development and applications of common key technologies such as non-woven, weaving, knitting, three-dimensional molding weaving, functional finishing, and composite processing. We will develop occupational safety protection fabrics that have anti-static, flame retardant, anti-ultraviolet, heat-dissipating, and thermal-insulating properties. These materials will also be skin-friendly and comfortable. We will accelerate the development and introduction of strategic new materials, environmental protection, medical and health care, emergency and public safety, infrastructure construction, and other industrial textiles.

Leading Enterprises

Fujian Nanfang Textile Co., Ltd., Xiamen Savings Environmental Co., Ltd., Tianshou (Fujian) Microfiber Technology Co., Ltd., etc.

Footwear Industry

We will advance high-end shoe materials and fabrics, intelligent shoe-making technology, and automation of shoe machine equipment. We will introduce and develop smart shoe materials and carry out R&D on sole materials, functional design, and molding processes. Such an approach will improve the wear resistance, comfort, skid resistance, and shock absorption of shoe soles. "Internet + shoes + intelligent hardware + value-added service" modes will be implemented. Different varieties of sports, casual, children's, occupation, and military police shoes will be refined to open up a new field of personalized and differentiated shoemaking.

Leading Enterprises

ANTA, Xtep, 361°, PEAK, Huafon, SEMS, etc.

Key Industries

New Materials Industry

In the vanguard of China's seven strategic emerging industries, the new material industry is pivotal to the "Made in China 2025" initiative. It lays the foundation and holds the key for the transformation and upgrading of the manufacturing industry. The pace of development in the new materials industry in Fujian has recently accelerated and the industrial agglomeration effect has been enhanced. The innovation system has gradually improved and the variety of new materials has been enriched. Several enterprises, with strong reputations both domestically and abroad, have been cultivated, and new material products such as rare earth metals, tungsten, molybdenum, lithium materials, stainless steel, new materials, advanced textile materials, and advanced chemical materials have been established.

Investment Attraction Focus

We will focus on cultivating a suite of high-performance, distinctively advanced materials spanning the spectrum from metals, chemicals, and construction to lightweight textiles and new energy solutions. We are dedicated to developing specialized alloys and high-performance metal rubber for high-end equipment that requires high endurance against heat and corrosion and robust yet lightweight properties, as well as graphene and polymers tailored for metal additive manufacturing. In the meantime, we will expedite the construction of strategic emerging industrial clusters of new functional materials in Fuzhou, Xiamen, and Putian, and strive to create national-level new material industry clusters. Fujian will also advance the development of graphene industrial parks in Sanming, Quanzhou, and Xiamen, building them into national high-end graphene industrial bases.

Leading Enterprises

Xiamen Tungsten Co., Ltd., CATL, Tsingtu Group Co., Ltd., Fujian Huafeng New Material Co., Ltd. Xiamen Sanan Optoelectronics Co., Ltd., etc.

Key Industries

New Energy Industry

Fujian gives full play to its resource advantages and adheres to the direction of clean and low-carbon development. The province will develop new and renewable energy sources and build a modern energy system with the coordinated development of energy and ecological civilization. We will promote the construction of an important energy base along the southeastern coast and continuously enhance the level of energy security. By the end of 2023, installed power capacity in the province had reached 81.4138 million kilowatts from a diverse energy mix with 16.0624 million kilowatts from hydropower, 37.1699 million kilowatts from thermal sources, 11.6620 million kilowatts harnessed through nuclear energy, 7.6172 million kilowatts generated by wind, and 8.7453 million kilowatts from photovoltaic power. Clean energy sources notably constituted 63% of the total, reaching 51.31 million kilowatts, responsible for about one in every two kilowatts of electricity.

Investment Attraction Focus

Fujian will focus its efforts on the industrialization of renewable energy technologies such as new solar photovoltaics, thermal power generation, biomass gasification, biofuels, marine energy, and geothermal energy, as well as smart grid and micro-grid technologies.

Leading Enterprises

GS-Solar Co., Ltd., JP SOLAR, Gold Stone (Fujian) Energy Co., Ltd., Goldwind Science & Technology Co., Ltd., Dongfang Electric Corporation (Fujian Branch), LM Glasfiber, China Water Conservancy and Hydropower Engineering Bureau No.4 Co., Ltd., etc.

Key Industries

Biology and New Medicine Industry

Fujian's biology and new medicine industry is gradually expanding. The province has formed an industrial development pattern with Xiamen, Fuzhou, and Sanming as the main support, and the key regions are collaborating to promote this industry. Several key medicine industrial parks have emerged, such as the Fuzhou Jiangyin Industrial Park, the Fuzhou High-tech Zone Biomedical Industrial Park, the Xiamen Biomedical Port, the Sanming Biomedical Industrial Park, the Putian Cross-Strait Biotechnology and Medical Health Industry Cooperation Zone, and the Changting Medical Device Industrial Park. The Xiamen biomedical industry cluster has been selected as a national strategic emerging industry cluster. By the end of 2023, there were 341 pharmaceutical enterprises above the designated size in the province, with an operating revenue amounting to RMB 60.1 billion.

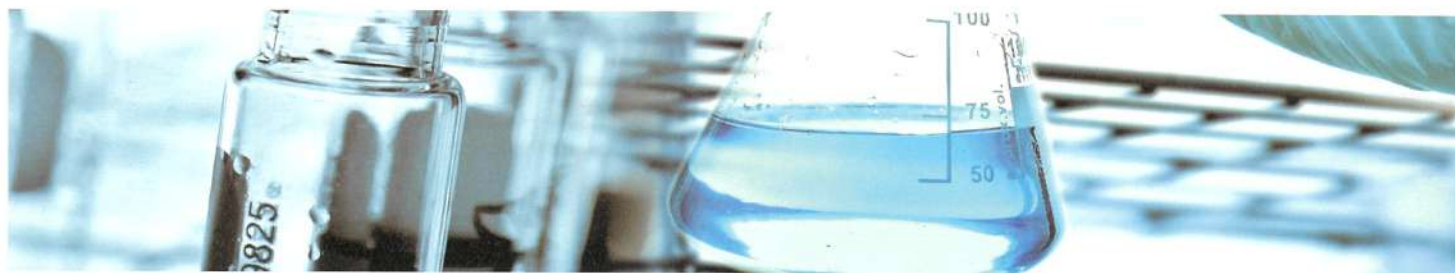

Investment Attraction Focus

Fujian will concentrate on the development of innovative drug varieties such as biological and chemical drugs and modern Chinese medicine for the prevention and treatment of major diseases. Innovative drugs with independent IP rights will be introduced. Also, we will accelerate the pace of our R&D and industrialization of biomedical engineering products such as advanced medical devices and new medical materials.

Leading Enterprises

Fuzhou Fuyao Pharmaceutical Co., Ltd., LP Pharma, Fujian Mindong Rejuvenation Pharmaceutical Co., Ltd., Guangshengtang Pharmaceutical, Zhangzhou Pien Tze Huang Pharmaceutical Co., Ltd., Xiamen Traditional Chinese Medicine Co., Ltd., Tongyitang Pharmaceutical Co., Ltd., Xiamen Amoytop Biotech Co., Ltd., Xiamen Innovax Biotech Co., Ltd., Sinobiqway Biomedicine Co., Ltd., Xiamen Biotime Biotechnology Co., Ltd., Double Medical, AmoyDx, MXB, etc.

03

PLATFORMS

China (Fujian) Pilot Free Trade Zone

The China (Fujian) Pilot Free Trade Zone was launched on April 21, 2015, with an implementation area of 118.04 square kilometers, covering the three areas of Fuzhou, Xiamen, and Pingtan Comprehensive Experimental Area. Over the course of nine years, the China (Fujian) Pilot Free Trade Zone has remained steadfast in its commitment to institutional innovation as the cornerstone of its development, yielding numerous achievements marked by distinct Fujian characteristics and a Taiwan-first principle. Concurrently, it has methodically broadened its institutional openness, aligning with an institutional framework that resonates with globally recognized standards. Furthermore, it has expedited the nurturing of advantageous and distinctive industries, erected several influential, innovative development platforms, and fully leveraged its capacity as a comprehensive experimental hub for reform and opening up.

Summary of Numbers

The China (Fujian) Pilot Free Trade Zone has launched a total of **622** innovative initiatives, of which **275** are the first of their kind within China.

These include **35** innovations that have been replicated and promoted nationally. **9** pilot experiences have been included in the "Best Practice Cases" of the national pilot free trade zones, firmly positioning us at the forefront of innovation.

A total of **131,000** new enterprises were added with a registered capital of RMB **2.84** trillion, a respective **8.5** times and **12.8** times those before the establishment of the Zone.

With less than one-thousandth of the province's area, the Zone has attracted nearly **one-quarter** of the province's new foreign-funded enterprises and contributed **one-sixth** of foreign trade import and export volume.

Innovation and Development Platform

We will focus on amplifying the reach and throughput of specialized platforms, encompassing the Internet of Things, aviation maintenance, vehicle import and export, imported wine, and bird's nest.

We will pledge to elevate the caliber and productivity of burgeoning business models, including cross-border e-commerce, offshore trade, bonded maintenance, and research and development.

We will promote the swift expansion of contemporary service sectors such as industrial funds, cultural trade, and legal services.

We will fortify the infrastructure of Zone that features digital services, cutting-edge supply chain solutions, and smart port technologies.

China International Fair for Investment & Trade

Sponsored by the Ministry of Commerce of the People's Republic of China, the annual China International Fair for Investment & Trade ("CIFIT") is held in Xiamen, Fujian, from September 8-11. The Fair promotes bilateral investment, releasing authoritative information and discussing investment trends. It has become one of the most influential international investment events across the world.

100

5,000

In recent years, each event has attracted representatives of official investment promotion agencies, chambers of commerce, associations, and multinational corporations, over 1,000 industrial and commercial economic and trade groups, approximately 5,000 companies, and over 50,000 professional merchants from China, and nearly 100 countries and regions around the world.

CIFIT Official Online Platform

As an international investment public platform that integrates investment information release, project roadshows, and matchmaking CIFIT Official Online Platform empowers investment promotion with "digital infrastructure" and provides functional scenes and interactive services online such as exhibitions, matchmaking, negotiation, seminars, and signing ceremonies. The platform is dedicated to effectively helping governments and merchants find projects, capital, talents, and carriers while emerging online and offline activities and promoting investment both during and beyond CIFIT events, thus creating a "never-ending" investment fair.

Invest Fujian, China

Established in 2008, the "Invest Fujian, China" is a provincial-level website for promoting investment into the province. With authoritative investment data accumulated over more than a decade, customer resources, and good reputation, it provides a one-stop service for enterprises looking to invest in Fujian.

The website, designed with investors in mind, centralizes the industrial chain and offers detailed insights into industries, projects, carriers, news, and services, presenting a thorough overview of Fujian's commercial strengths.

The website's core features include an online pavilion, a recommendation space, and a discussion forum, offering innovative investment promotion solutions beyond the constraints of time and space.

At present, the Chinese name of the website, "Invest Fujian", and related keywords command prominent positions in the search rankings of Baidu and Google.

Investment Policies

To implement the decision and deployment on foreign capital utilization of the Central Committee of the Communist Party of China (CPC) and the State Council, Fujian has introduced several policy documents to promote the utilization of foreign capital in recent years.

Since 2023, Fujian has implemented measures to boost foreign capital use, targeting steady, superior growth. It introduced nine initiatives to upscale and refine foreign investment, particularly in manufacturing, alongside 25 strategies to improve the investment environment and attract global capital. The province has intensified its efforts to draw in international investment projects, particularly in sectors of strategic importance. It pledges to guarantee equitable treatment for foreign-invested enterprises and to rigorously enforce policies that yield tangible results.

Complaint Management for Foreign-invested Enterprises

Notes:

This procedure is based on the Rules on Handling Complaints of Foreign-Invested Enterprises.

1. **"The complainant"** refers to foreign-invested enterprises and foreign investors.

2. **"Complaints"** include:

- (a) The Complainant alleges that their legitimate rights and interests have been infringed upon by the administrative actions of administrative bodies and their staff members;
- (b) The Complainant reports issues concerning the investment environment and suggests improvements of relevant policies and measures to agencies handling complaints.

The complaints do not include applications of the Complainant for coordination to settle civil and commercial disputes with other natural persons, legal persons, or other organizations.

3. **"Agencies Handling Complaints"** include:

- (a) The National Center for Complaints of Foreign-Invested Enterprises;
- (b) Departments or institutions designated by local people's governments at and above the county level that are responsible for accepting complaints of foreign-funded enterprises.
