Investment Manual

**INVESTMENT**

# FOREWORD

In Chinese, "Xia" in "Xiamen" means "edifice", implying soaring views, while "men" means "thoroughfare", denoting great breadth.

Xiamen, renowned for its high quality development and sound ecological conservation, is a special economic zone opening its doors to cooperation and development. With a steadfast commitment to high-quality growth, Xiamen is forging ahead on its path towards progress and prosperity.

Over the past 45 years of reform and opening-up, Xiamen has made remarkable progress, with continuously increasing economic strength and upgraded industrial capabilities. The city has also witnessed a bursting creativity and vitality in scientific and technological innovation, along with a harmonious coexistence between humanity and nature. In 2023, Per capita GDP of Xiamen reaching RMB 151,700. There were 900,000 commercial entities citywide, including over 4,220 national-level high-tech enterprises, marking a new milestone. Moreover, Xiamen entered the list of top 100 global cities in technology clusters and technology intensity. These achievements fully reveal a vibrant Xiamen, featuring a solid foundation, huge potential and powerful momentum to promote high-quality development.

This coastal city, lying in the embrace of the East China Sea, shows increasingly prominent developmental advantages, propelling various industries forward at an accelerated pace. Xiamen is rapidly advancing the development of "4+4+6" modern industrial system, achieving a total scale of over 2 trillion yuan for its four pillar industry clusters and nearly 500 billion yuan for its four strategic emerging industries. Additionally, the city boasts 176 enterprises that form the backbone of its future industry. The city's industry is gathering momentum and poised for a promising future. Today, Xiamen has emerged as a thriving hub of investment, offering a wealth of opportunities for global entrepreneurs. It has become a melting pot of international industries, enterprises, capital and talents, making it a prime destination for business convergence. Here in Xiamen, multinationals like ABB, Schneider, and NEG are continuing their stories of success; industry leaders such as Tianma Microelectronics, CATL, and Anli are advancing rapidly; Internet giants like Tencent, Alibaba, and ByteDance are

strategizing for greater growth; locally-headquartered new companies such as KEHUA, Yealink, and G-bits are growing robustly; and 165 national-level "small-giant enterprises" with specialized high technologies have emerged. Xiamen is firmly anchored in its pursuit of high-quality development, and is committed to providing a first-class business environment that offers an open and dynamic growth platform for enterprises. Xiamen is dedicated to teaming up with businesses to secure greater success.

The tower of strength remains steadfast amid tidal surges. This is an era of advancing the construction of Chinese-style modernization. Xiamen, in its capacity as a test bed of reform and opening-up and a pioneer in the trial and error, Xiamen has responded actively to seize opportunities, strengthen advantages, and tap potential to vigorously set out a new chapter of high-quality development. Xiamen is accelerating the construction of a modern industrial system by leveraging several national open platforms such as the Pilot Free Trade Zone, the core area of Marine Silk Road, the national independent innovation demonstration zone, the BRICS PartNIR Innovation Center, the Maritime Silk Road Central Legal District, and Comprehensive Reform Pilot Zone. This city is actively implementing major tasks such as the science and technology innovation leadership project, market entity cultivation project, and advanced manufacturing industry multiplication plan. Xiamen is also aggressively building itself into a core and leading area for integrated development across the strait, becoming a major hub for the new development paradigm and for domestic and international "dual circulation". Xiamen, a land of passion and determination, is poised to move forward with greater openness, inclusivity, and confidence towards the world and the future.

Xiamen is unwaveringly marching down a bright road. In this new era and new journey, it is the right time to invest in Xiamen. All entrepreneurs are welcomed to Xiamen to pursue opportunities and secure growth as our "city partners". Together, we will achieve high-quality development for the city and enterprises.

We're looking forward to securing greater success with you in Xiamen.

## GEOGRAPHIC ADVANTAGES

### A Port City with a Long History

In his 1864 trade report, George Hughes, Commissioner of Customs in Xiamen, wrote: "Xiamen is the point connecting the Chinese market to the South markets." (Note: The South markets include present-day Thailand, Singapore, Malaysia, Indonesia and other Southeast Asian countries.)

### A Major Point of Access to the Sea from the Chinese Mainland

Xiamen faces the Taiwan Strait to the east, bordering the Pearl River Delta to the south and the Yangtze River Delta to the north. The city is also connected westward to Jiangxi, Hunan, Hubei Provinces, and the vast hinterland along the Beijing-Kowloon Railway.

### A Cross-Strait Demonstration Zone for Integrated Development

Xiamen is the only special economic zone in the Chinese mainland which has been set up with Taiwan in mind. The city has been authorized to conduct comprehensive supportive pilot reforms for the purpose of deepening the exchange and cooperation across the Taiwan Strait. Xiamen will be built into a cross-strait demonstration zone for integrated development and is on track to become the premier destination for Taiwan residents and businesses bound for the Chinese mainland.

### A Major International Shipping Hub

Centrally located between Southeast Asia and Northeast Asia, the Port of Xiamen has direct links to 152 ports in 57 countries and regions around the world.

### A Strategically Pivotal City for Maritime Cooperation

Fujian Province is the "Core Region of the 21st-Century Maritime Silk Road". As a major node of seamless connection between the Land and Maritime Silk Roads, Xiamen is set to become a strategically pivotal city for maritime cooperation, serving as a hub for global connectivity, economic and trade cooperation, maritime cooperation, and cultural exchange. The city is also poised to become a major hub for domestic and international "dual circulation".

## TRANSPORTATION NETWORK

### Rooted in Southeastern China, Embracing the Whole Country, and Connecting to the World

As one of the state-designated "comprehensive international transportation hub cities", Xiamen boasts world-class sea, land, and air transportation hubs, as well as a cruise port. Its international airport, seaport, expressways and railways facilitate the flow of passengers and freight. The city is a central transportation hub delivering seamless global connectivity with unrivalled operational efficiency and a full range of services.

Xiamen Airport is one of the six largest airports in mainland China. Citizens from selected nations who transit through Xiamen Airport are eligible for 144-hour visa exemption. Xiamen Airport has earned the platinum accreditation in IATA's Fast Travel Program and has been rated by CAPSE as the Best Airport of the Year for six consecutive years.

On January 11, 2024, the National Immigration Administration officially released five measures to facilitate the entry of foreigners to China, and Xiamen became one of another batch of cities to implement the policy following Shanghai, Beijing, and Guangzhou. Xiamen Gaoqi International Airport has implemented facilitation measures to exempt 24-hour visa-free transit passengers from border inspection procedures.

The new Xiamen Airport, which is currently under construction, is expected to handle 85 million passengers a year. Slated to be put into service in 2026, the new airport will become a major regional aviation hub on China's southeast coast, a "gateway" hub airport on the Maritime Silk Road, and a leading airport for transportation across the Taiwan Strait.

## Advanced Shipping Hub

Xiamen is one of China's top four international shipping centers, a national logistics hub port, and the central city of southeast China for logistics. As of the end of 2023, the Port of Xiamen has opened 175 container shipping routes, including 133 foreign trade routes. There are 188 operative berths at the Port of Xiamen (including 80 berths capable of accommodating ships over 10,000 tons); the annual cargo handling capacity stands at 115 million tons, while the container throughput reaches 11.259 million TEUs. The Port of Xiamen is an integrated hub for direct transportation across between mainland China and Taiwan. The ferry services between Xiamen and Kinmen provide the most convenient passenger traffic across the Taiwan Straits.

## Silk Road Maritime

Fujian Province is taking advantage of its standing as the core region of the Maritime Silk Road to build a "Silk Road Shipping" Alliance, formulate and promote the "Silk Road Shipping" service standards, and broaden cooperation with international ports. This initiative, with the Port of Xiamen at the core, is expected to transform Xiamen into a national center for not only "Silk Road Shipping" but also for China (Xiamen)-Europe freight train services. Thus, the network of "Silk Road" shipping will be further expanded, and a great channel for sea and land transportation across the world will emerge to facilitate economic and trade cooperation and the flow of logistics between the East and the West. Since the official commencement of the "Silk Road Shipping" routes in Xiamen in December 2018, a total of 59 routes named after the "Silk Road Shipping" of the Port of Xiamen have been launched. As of the end of 2023, a total of 9823 voyages have been completed, with the container throughput reaching 10.9509 million TEUs.

## Hub of Efficient Land Transport

Xiamen is part of a regional railroad network comprising five trunks (Yingtian-Xiamen, Fuzhou-Xiamen, Xiamen-Shenzhen, Longyan-Xiamen, and Fuzhou-Xiamen Railways) and two branches (Haicang and Dongdu port area branch lines). In Xiamen's comprehensive rail transport system, passenger transport is serviced by Xiamen North Railway Station and Xiamen Railway Station, complete with high-speed train operation and carriage maintenance facilities, while freight transport is serviced by Qianchang Large-Scale Rail Freight Yard and Dongfu Marshalling Station. Xiamen has basically emerged as a major rail transport hub on China's southeastern coast, with journeys to Shanghai, Shenzhen, and Fuzhou taking only 5, 3, and 1 hours, respectively. As of the end of 2023, the city's road mileage (excluding natural village roads) has 2,150,927 km, including four national expressways (Shenyang-Haikou, Xiamen-Chengdu, Ningbo-Dongguan, and Xiamen-Shaxian), three ordinary national highways (G319, G324, G228, and G638), and five provincial highways (S209, S213, S217, S318, and S507). With these expressways and highways, Xiamen is seamlessly connected to the road networks of the surrounding cities and central and western China. The Fuzhou-Xiamen High-speed Railway was opened to traffic on September 28, 2023, speeding up the creation of the "Fuzhou-Xiamen one-hour living circle". Preparations for the Xiamen-Zhangzhou-Quanzhou Intercity Railway are also being expedited, along with the planning and construction of projects such as the Xiang'an Airport Expressway.

In 2023,  
the Port of Xiamen

container port  
in China

the **7**th largest

container port  
in the world

the **13**th largest

handled

**12.5537**  
million TEUs

The Port of Xiamen received the highest score in the "Assessment of the Business Environment of China's Top Ten Maritime Container Ports" for five consecutive years from 2019 to 2023.

Xiamen Ocean Gate Container Terminal and Xiamen Container Terminal Group were rated as "Green Ports of Asia-Pacific". Xiamen Hairun Container Terminal, Xiamen Haitian Container Terminal, Xiamen Songyu Container Terminal, Xiamen Xinhaida Container Terminal, and Xiamen International Container Terminal were rated as four-star "Green Ports of China". Xiamen Hairun Container Terminal was rated as a four-star "Intelligent Port of China".

## China (Xiamen)-Europe Freight Trains

Xiamen is a land-sea hub city with seamless connections to the "Belt" and the "Road". International freight trains operate between Xiamen and Europe, Central Asia, and Russia, reaching 34 cities in 12 countries. Sea-rail combined transport facilitates the flow of goods between Xiamen and Hong Kong, Taiwan, South Korea, the ASEAN countries, and Europe, making Xiamen a hub on the three major logistics links between China and Central Europe, Central Asia, and Russia.

### Main Operating Routes

## Transit Rail System

Metro Lines 1, 2, and 3 (between Xiamen Railway Station and Caicuo Station), with a total length of 98 km, are currently in operation, creating a three-way transit rail backbone network connecting to the city's mainland areas. Construction is underway on the southern extension of Line 3, the airport section and Lines 4 and 6, with a total length of about 113 km. When these lines are completed, Xiamen is expected to have a transit rail network that "radiates from a center, develops around the bay, and offers air-rail intermodal transport".

Map of Xiamen Transit Rail Network

## SCIENCE AND TECHNOLOGY INNOVATION VITALITY

Recent years have seen Xiamen launch pioneering measures following the "five highs" approach, i.e., to plan innovation development with a high starting point, cultivate innovative entities with high quality, build innovative platforms at a high level, establish innovative mechanisms with high standards, and foster innovative talents at a high level, and has achieved impressive results.

### Sci-Tech Innovation City

Xiamen's "S&T Clusters" and "S&T Intensity" has risen to the 80th and 81th place respectively in terms of the Global Innovation Index;

Among Nature Index Science Cities, Xiamen has risen to 38th place in the world;

Xiamen ranks 18th in the Innovation Capacity Index of National Innovative Cities;

2023

The intensity of R&D investment is expected to exceed 3.3%;

The number of state-level high-tech enterprises is 4,220;

There were 254 new provincial-level Little Giants tech enterprises, making a total of 655;

6 new technological enterprise incubators were fostered, bringing the total to 54 (including 10 at the national level),

176 future industry backbone enterprises emerged;

A steady growth is seen in the number of registered technology contracts and the turnover of technology contracts in Xiamen. Xiamen certified and registered 8025 technology contracts in a total value of 17.358 billion yuan, accounting for 46.23% of the province.

- The world's first hepatitis E vaccine
- The world's third and China's first cervical cancer vaccine
- The world's first nasal spray COVID-19 vaccine
- The world's first nerve growth factor officially approved for clinical use
- The first commercial grade autonomous bus in China
- The world's most advanced flexible AMOLED production line
- "Xiamen Science and Technology No 1" pilot satellite, "Tianwei Science and Technology No. 1" pilot satellite, and "Tianwei Science and Technology 03" satellite

## Innovation Platform

Xiamen boasts an impressive research infrastructure: 5 national key laboratories, 1 national key laboratory jointly built by the province and ministry, 66 provincial key laboratories and 159 municipal key laboratories;

128 engineering technology research centers, including 2 at national level, 36 at provincial level and 90 at municipal level; 1 municipal technology innovation center;

41 national postdoctoral research workstations, 37 academician expert workstations and 20 provincial postdoctoral innovation practice bases;

54 new-style R&D institutions at the provincial level and 15 at the municipal level;

35 national-level mass innovation spaces on record, 2 national professional mass innovation spaces, 54 provincial-level and 92 municipal-level mass innovation spaces;

62 technologically advanced service enterprises and 285 enterprise technology centers.

Card

### Tan Kah Kee Innovation Laboratory (Fujian Sci-Tech Innovation Laboratory for Energy Materials)

This laboratory is a collaborative effort between Xiamen Municipal People's Government and Xiamen University. It stands as one of the first four provincial innovation laboratories in Fujian. Spanning a vast floor area of over 90,000 square meters, the laboratory encompasses an energy-materials building and industrialization space. Additionally, the laboratory has established several public infrastructure platforms, including Asia's first noise-free lab, an intelligent computing center, an electronic microscopy platform, and a spectroscopic analysis platform. The laboratory has successfully undertaken over 80 sci-tech advancement projects across nine categories, resulting in the development of nearly 20 crucial core technologies in fields such as electrochemical energy storage, hydrogen energy, semiconductors, and future displays. Furthermore, the laboratory has independently incubated and established 19 technology-intensive enterprises, including Huashang Xiageng Hydrogen Energy and Fujian Yonggeng.

### Xiang'an Innovation Laboratory (Fujian Sci-Tech Innovation Laboratory for Energy Materials)

Jointly sponsored by Xiamen Municipal People's Government and Xiamen University, the lab centers on the innovation, transformation and industrialization of biomedicine science and technology, the Lab is committed to making technological breakthrough in basic science, underlying technology, applied technology and transformation technology related to biomedicine, as well as developing innovative products such as vaccines, testing reagents and medical devices and drugs.

## Intellectual Property

Xiamen is a national demonstrative city for intellectual property rights.

By the end of 2023, Xiamen had 28543 valid invention patents, 25.2 for every 10,000 people. Xiamen Torch Development Zone for High Technology Industries was rated as the "national intellectual property demonstration zone" and Xiamen University was rated as the "national intellectual property demonstrative university".

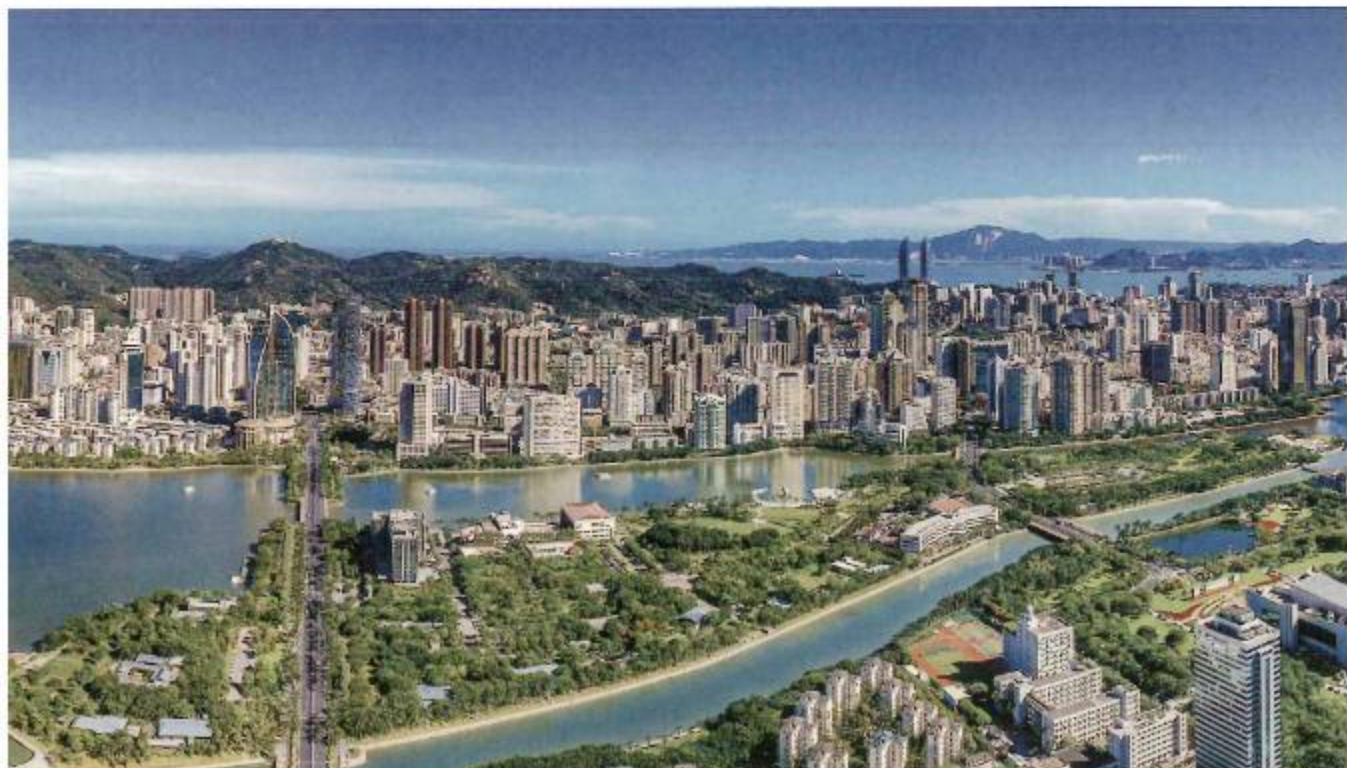

## ENVIRONMENTAL ADVANTAGES

### ◆ World-Class Business Environment

Xiamen was one of the first Chinese cities to build a world-class business environment according to the World Bank's Ease of Doing Business (EDB) Index System. In recent years, Xiamen has consistently ranked among the top cities in the national urban business environment assessment organized by the National Development and Reform Commission. Rated as China's benchmark city for business environment, Xiamen led the nation in innovative measures relating to building permits, taxation, and credit obtainment. For five consecutive years, Xiamen has been ranked first in the province's digital monitoring and supervision of the business environment. Xiamen's social credit system has also steadily improved. In 2023, the city's average comprehensive credit index ranked first among the 36 provincial capital cities and semi-provincial level cities in the Chinese mainland.

### ◆ Ecological Living Environment

Xiamen is one of China's most popular destinations for international tourists, reputed as the "Garden on the Sea". The average annual temperature stands at 21.6℃, giving the city a mild climate all year round. There are 200 parks, with a green coverage rate of 44.11% in the built-up areas and a park green land per capita of 14.83 square meters. In 2023, Xiamen's integrated air quality index (2.61) ranked seventh among the 168 key cities in China, with a good air quality rate of 99.7%, topping all Chinese cities together with Lhasa. The city was rated as a National Ecological Conservation Demonstration Zone. The southeast sea area of Xiamen was selected as an excellent case of national beautiful bays, and the Yuandang Lake was selected as an excellent case of national beautiful rivers and lakes.

## Education

### Educational Resources

◆ There are 1420 full-time schools, including 18 institutions of higher education, 151 secondary schools (including 13 secondary vocational schools and 9 technical schools), 292 elementary schools, 952 kindergartens, and 7 special education schools.

In addition, there are currently three international schools for expatriates' children: Xiamen International School, Manila Xiamen International School, and Achieve Xiamen International School.

Name  
Card

#### Xiamen University

A member of Project 211, Project 985, and the nation's "Double First-Class Universities" Project: its Education, Chemistry, Oceanography, Biology, Ecology, and Statistics disciplines have been included in the nation's second list of academic programs for world-class status. There are 35 academicians of the Chinese Academy of Sciences and Chinese Academy of Engineering (including 18 engaged by both), 56 project leaders for national key research and development program, 179 national leading talents, and 223 national young talents. XMU is reputed as the "pride of southern China" and "China's most beautiful university". It was the first Chinese university to establish an independent campus in Malaysia.

#### Huaqiao University

Co-founded by the United Front Work Department of CPC Central Committee, the Ministry of Education, and Fujian Province. The university has 10 doctoral programs of first-level disciplines; four disciplines (Engineering, Chemistry, Material Science, and Computer Science) rank among the top 5% of the ESI world rankings; and two disciplines (Environmentalology/Ecology and Social Sciences) rank among the top 1%. At present, the university has over 8000 students from Taiwan, Hong Kong, Macao, and 90-plus countries, one of the highest numbers among universities in the Chinese mainland.

#### Jimei University

Jimei University (JMU) was founded in 1918 by renowned patriotic overseas Chinese leader Mr. Tan Kah Kee. JMU is a Fujian "double first-class" university and one of Fujian's key universities, jointly supported by the Ministry of Transport, the Ministry of Natural Resources, Fujian Province and Xiamen City. Moreover, JMU is a university conferring PhD degrees and qualified to recommend exam-exempted candidates for master's degree programs. It is also the only university in the Chinese mainland authorized to conduct competency training for sailors from Taiwan.

## Healthcare

### Health Institutions

By the end of 2023, the average life expectancy of the population in Xiamen reached 82.42 years. Health institutions: Xiamen boasts 2644 medical and health institutions, including 70 hospitals, 2522 primary-level medical and health institutions, 24 specialized public health institutions, and 28 other health institutions. The city has 15 national-level key clinical specialties, including pediatric intensive care, gastroenterology, cardiology and ophthalmology. There are nine Grade 3, Class A hospitals in Xiamen, all of which offer medical services to expatriates.

Name  
Card

#### The First Affiliated Hospital of Xiamen University

One of China's top 100 hospitals, with 6 branches, 1 internet hospital, 1 nursing facility, and 69 clinical med tech departments; offering medical treatment, teaching, research, prevention, and rehabilitation services; the largest Grade 3, Class A general hospital in southwest Fujian.

#### Zhongshan Hospital of Xiamen University

Ranking among China's top 100 hospitals, this hospital is a Grade 3, Class A general hospital integrating medical treatment, teaching, scientific research, prevention and healthcare, and an affiliated hospital of a world-renowned high-level research university. It has national key clinical specialties in gastroenterology, cardiology, and general surgery, distributed in three hospital areas.

#### West China Xiamen Hospital of Sichuan University

A pilot project of the National Regional Medical Center that assembles a range of national key clinical specialties from West China Hospital of Sichuan University; serving as a Grade 3 general hospital that integrates medical treatment, prevention, teaching, and scientific research; operated and managed by West China Hospital of Sichuan University based on a consistent model.

#### Zhongshan Hospital, Fudan University (Xiamen Branch)

As the first regional medical center of in China, it is a modern Grade 3 general hospital operated and managed by Zhongshan Hospital of Fudan University based on a consistent model, possessing 15 renowned doctor studios.

#### Xiamen Cardiovascular Hospital of Xiamen University

The sole Grade 3 specialized hospital for cardiovascular diseases in Fujian Province; recognized as a sub-center of the National Clinical Research Center for Cardiovascular Diseases; a National Regional Medical Center for Cardiovascular Diseases jointly built by the National Health Commission and the Fujian Provincial Government. The hospital's cardiovascular medicine department was designated as a national key clinical specialty.

#### Xiamen Hospital of Traditional Chinese Medicine

(Xiamen Hospital of Dongzhimen Hospital of Beijing University of Chinese Medicine): The sole national regional medical center project dedicated to traditional Chinese medicine in Fujian; a national export base for traditional Chinese medicine featured services.

#### Chang Gung Hospital

Xiamen Chang Gung Hospital affiliated to Huaqiao University is a Taiwanese-funded Grade 3, Class A general hospital established by Mr. Wang Yung-Ching, the founder of Formosa Plastics Group, to give back to the Chinese mainland. This is a high-class but affordable hospital that integrates medical treatment, healthcare, elderly care, and research.

#### Xiamen Humanity Hospital

A Grade 3 general hospital created and funded by Benevolence Medical Foundation, which was initiated by C&D Group. It is a hospital serving the teaching of Fujian Medical University and Xiamen Medical College, and a hospital affiliated to Fujian Medical University. It has opened 48 clinical med tech departments.

## Tourism, Culture and Sports

Xiamen's holiday tourism popularity index and tourist satisfaction rate are among the highest in China. After years of cultivation, Xiamen has developed five product systems for tourism, including cross-strait tourism, trade exhibition tourism, leisure tourism, coastal tourism and Minnan culture tourism. Xiamen has been awarded the titles such as first batch of China's Excellent Tourism Cities and China Tourism and Leisure Demonstration City.

### Unique Tourism Resources

- Gulangyu Islet (Kulangsu)
- Xiamen Botanical Garden
- Huli Hill Fort
- Riyuegu Hot Springs Resort
- Fantawild Dreamland,
- Xiamen Battlefield Sightseeing Park

#### Cruise Tourism

Xiamen is one of China's top four pilot cruise ports, capable of accommodating three or four large or medium-sized cruise liners simultaneously, as well as the world's largest cruise ship, which has a gross deadweight tonnage of 220,000. The second phase of the Xiamen International Cruise Terminal is set to be officially opened in 2024, which will greatly enhance the customs clearance capacity of the Cruise Terminal. In 2023, Xiamen International Cruise Terminal received a total of 17 cruise ships and 22,526 passengers, making it one of the top cruise ports in the country. The country's first "Maritime Silk Road" route launched after its resumption boasts an impressive average occupancy rate of 99.5%. In March 2024, MSC Cruises kicked off a new season of international cruise ships with Xiamen as their home port. Additionally, three international cruise ships are scheduled to visit Xiamen as part of their global itineraries in 2024.

Card

### Xiamen Marathon

Launched in 2003, Xiamen Marathon has become one of the most influential and internationally recognized marathon events in China; it has been an World Athletics Gold Label Road Race for 13 consecutive years and an World Athletics Platinum Label Road Race for 4 consecutive years. In 2019, Xiamen Marathon received the Green Award from the Association of International Marathons and Distance Races (AIMS), becoming the first one in Asia and the seventh one in the world to receive such an honor. In 2020, Xiamen witnessed the establishment of the first marathon event public foundation in China, forming a "red, green, and blue" three-color charity system. In 2023, it received the "Global Special Contribution Award" from the World Athletics; in 2024, it was honored by the World Athletics as a "typical event of sustainability".

Mountains-to-Sea Trail

Romantic Seashore Tourism Line

Strait Grand Theater

### Mountains-to-Sea Trail

Xiamen Mountains-to-Sea Trail spans a total length of approximately 54 kilometers. Among them, the 23km-long Cloud Sea Line links up crucial ecological nodes such as the "eight mountains and three bodies of water" in the north-central part of the island, forming a mountains-to-sea walking corridor running east-west through the island. The 18km-long Forest Sea Line runs north-south through the island and intersects with the Cloud Sea Line and the Yunding Road air bike lane. The Mountains-to-Sea Trail has been built taking advantage of the water bodies, mountain forests and other natural resources, blending perfectly into the landscape. Featuring different foliage and flowers in different seasons, the trail allows tourists to appreciate the beauty of Xiamen as a coastal metropolis with spectacular mountain views.

### Coastal Tourist Line Around the Eastern Sea Area

The world's first professional marathon course with full road management rights; selected as one of the inaugural national pilot units of the National Aquatic (Marine) Recreational Sports Center; one of the 2021 China Sports Tourism Route Selection.

### Strait Grand Theater

The theater serves as the permanent venue for the awards-presenting ceremony of the China Film Golden Rooster Awards. With a gross floor area of 92,000 square meters, the theater has a seating capacity for nearly 6,900 people.

## “4+4+6” MODERN INDUSTRIAL SYSTEM

Xiamen seeks to build a “4+4+6” modern system of industries with continuous impetus and cascade development. To this end, Xiamen will optimize and strengthen four pillar industrial clusters (electronic information, machinery and equipment, commerce and trade logistics, and financial services), foster and expand four strategic emerging industries (biomedicine, new materials, new energy, and cultural tourism and creativity industries), and make forward-looking deployments for six future industries (3G semiconductors, future networks, cutting-edge strategic materials, hydrogen energy and energy storage, gene and biotechnology, and deep sea and aerospace development).

## Four Pillar Industrial Clusters

---

### Electronic Information Industrial Cluster:

Development priorities: flat-panel displays, computer and communication equipment, semiconductors and IC, as well as the Internet of Things, information technology application innovation, AI, big data and cloud computing, block chain, meta-universe, industry application software, and other software and information services

### Mechanical and Equipment Industry Cluster:

Development priorities: electrical equipment, aviation maintenance and manufacturing, new energy vehicles and high-grade machine tools, precision instruments, and other intelligent manufacturing equipment

### Commerce, trade & Logistics Industrial Cluster:

Development priorities: trade in goods, trade in services, MICE, and other commerce and trade services, as well as cold-chain logistics, urban and rural distribution, intelligent logistics, green logistics, and other modern logistics

### Financial Services Industrial Cluster:

Development priorities: fintech, wealth management, green finance, shipping finance, and other special modern financial services

## Four Strategic Emerging Industries

---

### Biomedicine:

Development priorities: innovative medicine, medical devices, biomedical services, and emerging cutting-edge fields

### New Materials:

Development priorities: optoelectronic information materials, rare earth functional materials, new energy materials, high-performance membrane materials, etc.

### New Energy:

Development priorities: new energy batteries, photovoltaic, energy storage, smart grids, energy Internet, etc.

### Culture, Tourism & Creativity :

Development priorities: film and TV, Internet audio-visual, culture and tourism, creative design, animation and gaming, artwork, music, etc.

## Six Future Industries

### 3G Semiconductors:

Accelerating groundbreaking innovation for gallium nitride (GaN), silicon carbide (SiC), aluminum nitride (AlN), etc.

### Future Networks:

Accelerating groundbreaking innovation for 6G mobile communications, deep AI, new network architecture, quantum communications, etc.

### Cutting-Edge Strategic Materials:

Accelerating groundbreaking innovation for next-generation new energy materials, high-end electronic chemicals, cutting-edge optoelectronic information materials, advanced carbon materials, etc.

### Hydrogen Energy and Energy Storage:

Accelerating groundbreaking innovation for catalysts, membrane electrodes, hydrogen fuel cells and other hydrogen core materials and components, as well as hydrogen production technology, new energy storage technology, etc.

### Gene and Biotechnology:

Accelerating groundbreaking innovation for gene technology, precision therapy technology, synthetic biology technology, next-generation microbiome technology, regenerative medicine, biomedicine and AI crossover technology, microecology technology, etc.

### Deep Sea and Aerospace Development:

Accelerating groundbreaking innovation for marine health and sustainable development technology, marine carbon sinks, marine information technology, deep-sea resource development, new-energy powered aircraft, new aero-engine technology, future air and space vehicles, etc.

## KEY INDUSTRIES FOR DEVELOPMENT

Adhere to the two drivers of advanced manufacturing and the modern service industry, Xiamen has continued to promote industrial transformation and upgrading and stepped up investment attracting efforts. It has successfully introduced a large number of high-capacity industrial projects, leading to the rapid expansion of industrial clusters. By 2023, Xiamen has achieved a total scale of over 2 trillion yuan for its four pillar industry clusters and nearly 500 billion yuan for its four strategic emerging industries. Additionally, the city boasts 176 enterprises that form the backbone of its future industry. It has also expedited the development of an industrial cluster of fashionable consumer products.

## FOUR PILLAR INDUSTRIAL CLUSTERS

### 1. Electronic Information

#### (1) Flat Panel Displays

#### Development Foundation

Xiamen is a pioneering city in developing the flat panel display industry and has seen it grow rapidly. Currently, Xiamen has the 5.5th and 6th generation of LTPS production lines, the 6th generation of flexible AMOLED production lines, and the 8.6th generation of new-type display panel production lines, covering a full range of display technologies, including a-Si, LTPS, AMOLED, and Micro-LED. As the world's largest manufacturing hub for high-end touch screen products, Xiamen is home to a plethora of industry-leading enterprises including Tianma Microelectronics, Nippon Electric Glass, TPK, AUO, and TPV Display. A comprehensive industrial chain is now in place in Xiamen, covering every field from glass substrates, panels and modules to LCDs and complete

machines. Currently, Xiamen is trying to drive innovation in the upstream suppliers with the needs of downstream customers by fostering key components such as optical films and polarizing films, trying to make breakthroughs in emerging display technologies such as Micro-LED. The objective is to create a range of international first-rate knockout products including flexible screens, curved screens, and touch screens, and to build a domestically leading and globally competitive base for the new-type flat panel display industry. The optoelectronic display industry in Xiamen Torch High-tech Zone has achieved national recognition as a "five-star" new-industrialization industry demonstration base for three consecutive years.

#### Development Priorities

- ◇ New-type display: AMOLED, Micro-LED, Mini-LED, LTPS, OLED and quantum dot display, 3D display, laser display, and holographic display.
- ◇ New-type electronic components: optoelectronic elements, display driver chips, and new-type electromechanical components.
- ◇ Core materials and key components supporting new

display panels: glass substrates, liquid crystal materials, TAC/PVA films, ITO and alternative new materials, and reflective film targets.

- ◇ Display terminals: 4K and 8K ultra-high-definition TV display panels, large-size display panels as well as applications in emerging areas such as in-vehicle display, virtual reality, Internet of Things, and 5G.

#### Host Parks

Flat Panel Display Industrial Park  
Torch General-Purpose Factory for Introduced Investment  
Tongxiang High-tech Town

## (2) Computers and Communication Equipment

### Development Foundation

Xiamen is home to a large cluster of enterprises manufacturing computers, video conference systems, mobile phone lenses, micromotors, flexible circuit boards, Bluetooth and wireless access equipment, digital audio-visual equipment and vehicle communication, positioning and navigation devices, sensors, etc. The city also hosts many supporting and industrial-chain extension enterprises producing basic components, accessories and peripheral devices and providing IT

services. Xiamen's shipments of computers, servers and monitors are among the highest in China, and the city's computer brands are globally recognized. Representative enterprises include: computer manufacturers Dell, Inspur, and Shenzhou Kuntai; mobile phone; communication terminal developers and manufacturers Yealink and Yaxun Network; and electronic component makers Tongda, GSEO, Hualian Electronics, Hongxin Electron-tech, Fuji Electric, Dial Electronic, and TDK.

### Development Priorities

◇ High-performance computers, including general-purpose servers, AI servers, cloud storage equipment manufacturing, information innovation PC and servers, operating systems, databases, middleware and other underlying software, OA, ERP, office software, government applications and other application software, boundary security products, terminal security products and other information security products.

◇ Core devices, network equipment, wireless communication equipment, mobile terminal products oriented towards new-generation network technologies, such as 5G and IPV; and

core components and materials for gateways, equipment, and intelligent sensors of the Internet of Things.

◇ Satellite communication, navigation, remote sensing equipment; robots, drones, autopilot systems, automatic control systems and other mid-range and high-end intelligent equipment.

◇ Wearable devices and intelligent home products; virtual reality and augmented reality technology R&D and intelligent devices.

## (3) Semiconductors and Integrated Circuits

### Development Foundation

Xiamen's IC industry covers design, manufacturing, packaging, testing, equipment, materials and applications. The city is China's largest manufacturing and export base for high-end LED chips and light sources, and its output value totaled 33.9 billion yuan in 2023. Xiamen has been approved as a National "Corefire" Entrepreneurship and Innovation Base, a National IC Production-Education Integrated Innovation Platform and a Cross-Strait IC Industry Cooperation Pilot Zone. Major industrial platforms in the city include:

Xiamen IC Design Public Service Platform, Xiamen (Haicang) Base EDA Platform for the National IC Shenzhen Industrialization Base, and Xiamen IC R&D Design Testing Center. Representative IC enterprises include Leadcore, San'an Integrated Circuits, Silan, Tongfu, Epiworld, PDMCX, Unisoc, SigmaStar, Uxfastic and Chipsun. Representative LED enterprises include San'an Optoelectronics, Changelight, Kaistar, Qiangli Jucai and Gopro.

### Development Priorities

◇ Design, packaging and testing of integrated circuits, and manufacturing of advanced packaging boards.

◇ Characteristic process manufacturing oriented toward the Internet of Things, intelligent terminals, automotive electronics, intelligent power grids, industrial control, and other fields of application.

◇ R&D and manufacturing of 8-inch and larger IGBT, MOSFET and other power devices, MEMS devices, and 3rd-generation compound semiconductors.

◇ Etching machines, ion injectors, multi-wire sawing machines, automatic packaging systems, automatic wafer testers, CVD, PVD, CMP, and other critical equipment for semi-conductor manufacturing.

◇ Manufacturing of silicon epitaxial wafers, targets, photoresists, high-purity chemical reagents, bonding wires, and plastic sealing materials.

◇ R&D and manufacturing of LED lighting, Micro/Mini LED displays and their epitaxial wafers, chips, packaging and other high-end products.

## (4) Software and Information Services

### Development Foundation

Xiamen ranks among China's top 14 software cities, leading the nation in many segments of the industry, including animation and gaming, the Internet, information security, big data, and AI. Xiamen Software Park, a star industrial park, has been rated "five-star" by the Ministry of Industry and Information Technology for its overall development quality. The Park has been approved to build the China Intelligent Audio-Visual Industry Base,

the National Digital Service Export Base, and provincial-level AI Industrial Park. Representative companies include Yuguo Cross-border (Xiamen) Technology, Xiamen Zhonglian Shiji, Taqu Information Technology, SDIC Intelligence, Yilian Network, Jibit, 4399, Meitu, Meiyou, Xiamen Road & Bridge Information, Yi Lianzhong, Zhiye Software, Ruiwei, and Utenet.

### Development Priorities

◇ Software R&D and design: technical development services such as software development, and embedded system design.

◇ Information technology services: new-generation information technology services, such as the Internet, cloud computing, big data, AI and blockchain.

◇ Digital content services: animation and gaming, digital

audio-visual, digital publishing, digital new media, and other cultural and creative services.

◇ New infrastructure: 5G, the Internet of Things, the Industrial Internet, and other information infrastructure; intelligent transportation, smart energy, and other converged infrastructure.

## 2. Mechanical Equipment

### Development Foundation

Xiamen's mechanical equipment industry covers automobiles, electrical equipment, aircraft maintenance, and general and special equipment manufacturing. In 2023, the output value totaled RMB 236.558 billion. King Long Motor leads the nation in the market share and technological standard of large and medium-sized passenger vehicles. ABB and Schneider, two global giants of electrical equipment, are at the forefront of the production capacity and market share of high-, medium- and low-voltage power transmission and distribution equipment in China. KEHUA has maintained its No.1

market share among China's UPS brands for many consecutive years. Xiamen Taikoo's large commercial aircraft repair is among the top providers in the Asia-Pacific region in terms of scale and technical level. Xiamen has become China's largest aircraft maintenance base. And XSI's automobile roll-on/roll-off ships, developed with proprietary technology, is known as the "Xiamen type" in the international shipping market. Representative enterprises include: King Long Motor, ABB, Schneider, KEHUA, Taikoo, STARCO, XSI, Linde Forklift Trucks, etc.

### Development Priorities

- ◇ Manufacturing of new-energy complete passenger vehicles, and supply of related software and hardware.
- ◇ Intelligent power transmission and distribution equipment, complete systems and key components and modules, and research institutes of electrical equipment standards and tests.
- ◇ Commercial aircraft cabin remodeling, engine overhaul, landing gear maintenance, engine disassembly parts remanufacturing, aircraft auxiliary manufacturing, aircraft

equipment, system and application industrialization.

- ◇ Environmental protection machinery and other new types of engineering machinery, intelligent electric control systems, wet-type brake drive axles, and other key components.
- ◇ Automotive lithium-ion power battery and cathode materials, diaphragm, aluminum-plastic film, dispersant, binder, and other supporting industries.

### 3. Commerce, Trade and Logistics

#### (1) Trade in goods

##### Development Foundation

Xiamen, in its capacity as one of the earliest special economic zones established in China and an export-oriented port city, has an early start in foreign trade. With a good foundation, Xiamen has nurtured numerous foreign trade enterprises with exceptional

international market development capabilities and a pool of skilled foreign trade professionals. Xiamen accounts for 48% of Fujian's import and export volume and has a high foreign trade dependence rate of 117%. "Made in Xiamen" products can be found in all countries and regions around the world.

##### Development Priorities

◇ To enhance investment promotion for foreign trade business entities, and precisely attract investment for key links in Xiamen's key industries such as integrated circuit, flat panel display and new materials;

◇ To push well-known overseas circulation enterprises to expand their business in Xiamen;

◇ To attract multinational companies and internationally renowned traders to set up regional headquarters, procurement centers and marketing settlement centers in Xiamen;

◇ To promote well-known e-commerce platforms at home and abroad or set up branches in Xiamen;

## (2) Trade in services

### Development Foundation

Xiamen is a pilot city for comprehensively deepening the innovative development of trade in services, as well as a demonstration city in China's service outsourcing industry. It has been identified as a national export base for cultural services, digital services, traditional Chinese medicine services, language services and other specialized services, forming a pattern of innovative development of trade in services featuring "one pilot city", "one demonstration city" and "multiple bases". In recent years, the trade in services of Xiamen has experienced a remarkable surge. According to

the local estimate, in 2023, the import and export value of Xiamen's trade in services amassed 101.025 billion yuan, an increase of 21.7% year-on-year. Representative enterprises include Dianchu Technology, Mechanist Games, COSCO Shipping, Meltu Company, 4399 Network, Huaqiao University, and Xiamen Hospital of Traditional Chinese Medicine. Xiamen witnessed 14 enterprises and 5 projects selected as 2023-2024 key enterprises and key projects for national cultural export.

### Development Priorities

◇ Special trade in services: aviation maintenance service, telecommunication, computer and information service, cultural service.

◇ Emerging trade in services: professional and management consulting service, financial and insurance service, featured finance lease business such as air transportation and shipping, and knowledge service.

### Host Parks

#### (I) National Cultural Export Base

In June 2018, the Ministry of Commerce identified the Xiamen Area of China (Fujian) Pilot Free Trade Zone as the first national cultural export base. In 2021 and 2022, the National Culture Export Base of Xiamen Area secured the top position among functional area bases in the comprehensive evaluation.

#### (II) National Digital Service Export Base

In April 2020, the Ministry of Commerce identified Xiamen Software Park as a national digital service export base.

(III) International Trade in Services Industrial Park and Investment Promotion Trade in Services Innovation Library of Xiamen Area

### (3) MICE Industry

#### Development Foundation

Xiamen has ranked among "China's Top Ten Most Competitive Exhibition Cities", "China's Top Ten Exhibition Cities", "China's Most Innovative Exhibition Cities", and "China's Best Conference Destination Cities" multiple times. In 2023, Xiamen hosted 152 exhibitions with space totaling

2.26 million square meters, as well as 4,383 meetings and conferences with 810,000 participants. The revenue totaled RMB 28.7 billion. Representative enterprises include Xiamen C&E Group, ITG MICE, Jinhongxin Exhibition, Phoenix Creativity, and C&D International Travel Agency.

#### Development Priorities

- ◇ Specialized exhibitions and international exhibitions
- ◇ Large-scale high-level meetings and conferences
- ◇ Integrated service providers for MICE

## (4) Modern Logistics

### Development Foundation

Xiamen has emerged as southeast China's regional hub for land, sea and air transportation. The city is speeding up the construction of an international integrated transportation hub and a national port-type logistics hub. In 2023, Xiamen's logistics industry revenue totaled RMB 171.537 billion, and the Port of Xiamen handled 220 million tons of goods and

12.5537 million TEUs of containers, ranking 7th nationwide. Representative enterprises include Xiamen Port Holding, Sinotrans, COSCO Logistics, Zhonggu Shipping, JD Logistics, SF Express, Deppon Express, ZTO Express, Haitou Supply Chain, etc.

### Development Priorities

◇ Industry development platforms integrating procurement trade, logistics distribution, supply chain financial settlement and regional operation management headquarters.

◇ International and domestic transshipment, procurement distribution, cross-border e-commerce logistics, international shipping services and other port logistics.

◇ Intercity and urban-rural logistics distribution for public welfare, cold chains and medicines.

◇ Joint logistics for manufacturing, trade, and finance.

◇ Regional joint logistics for Taiwan, Southeast Asia, and central and western parts of China.

## 4. Financial Services

### Development Foundation

Focusing on the goal of building itself into a financial powerhouse, Xiamen is making further efforts to improve the service system of financial institutions, enhance the capability of financial services to the real economy, and establish the finance layout of "two zones and two center" (pilot zone of financial opening-up, demonstration zone of industry-finance integrated development, financial technology development center, and wealth management innovation center). Development priorities will be given to characteristic businesses such as fintech, wealth management, green finance and shipping finance. In 2023, the financial industry contributed an added value of 96.7 billion yuan, accounting for 12% of the city's GDP; the revenue reached 204.2 billion yuan, and balance of deposits in RMB and foreign currencies totaled 3.53 trillion yuan. Private equity funds reached over 490 billion yuan in scale.

Multiple innovation reforms in green finance have been implemented successfully, and initial results have been seen in the fintech development. Xiamen is home to 280 licensed financial institutions engaged in banking, securities and insurance; 19 corporate financial institutions; 166 local financial institutions for small loans, financial leasing and financial guarantees; 98 domestically and globally listed companies; and 339 registered private fund management institutions. The city has created a diversified financial service system with wide-ranging functions and a high level of operating efficiency. Representative enterprises include: Xiamen Jinyuan Investment Group, Xiamen Bank, Xiamen International Bank, Xiamen Rural Commercial Bank, Jinyuan President Securities, Great Wall Glory Securities, King Dragon Life, Fubon Property Insurance, Xiamen International Trust, and Xiamen Guarantee & Investment.

### Development Priorities

- ◇ Financial institution headquarters, specialized subsidiaries, regional branches and characteristic financial divisions, and dedicated capital business institutions.
- ◇ Private investment funds.
- ◇ Local financial organizations.
- ◇ Financial technology, gold industry, and other characteristic industries.
- ◇ Financial management subsidiaries, rating companies and other emerging financial business formats.

## FOUR STRATEGIC EMERGING INDUSTRIES

### 1. Biomedicine and Health

#### Development Foundation

Xiamen is a characteristic industrial base of biology and new medicine under the nation's Torch Plan. The city's biomedicine and health industry has nine development focuses, including innovative drugs, high-performance medical devices, high-value functional food, biological manufacturing and biological breeding, and emerging marine biotechnology. The biomedical industry has been included in the nation's first batch of strategic emerging industrial clusters. In 2023, the output value totaled RMB 84.7 billion, with 1500-plus enterprises specialized in

biomedicine and health. Xiamen boasts the world's first hepatitis E vaccine, China's first long-acting interferon – Peginterferon, the world's third and China's first bivalent cervical cancer vaccine, and China's first BNCT tumor treatment equipment. Representative enterprises include Innovax Biotech, Amoytop Biotech, Double Medical, InTech Products, Kingdomway, AmoyDx, LP Pharma, DS Biotech, Zeesan Biotech, HITECK, KingMed Diagnostics, Hyrbio Medical Laboratory, and Neuboron.

#### Development Priorities

◇ Innovative drugs and high-end preparations. New vaccines, protein and peptide drugs, antibody drugs and micro-ecological preparations and other biological products, innovative small molecule drugs, small nucleic acid drugs, targeted drugs, and improved new drugs.

◇ High-performance medical devices. Immuno-diagnosis, molecular diagnosis, POCT and other in-vitro diagnostic reagents and core raw materials, as well as new-generation fully automated diagnostic equipment; various types of artificial organs, cardiovascular and orthopedic consumables, medical imaging equipment, tumor treatment equipment, and other high-end medical devices; telemedicine equipment, intelligent medical systems, health equipment, etc.

◇ Cutting-edge biomedical technology. biomedical AI, cutting-edge life-science cross-fertilization technology, tumor immunotherapy, cell therapy, gene therapy, and other cutting-edge biological treatment technology.

◇ Biomedical industry services. Professional medical testing laboratories, medical imaging diagnosis centers, pathology diagnosis centers, and other third-party testing services and biomedical CXO service enterprises.

◇ Emerging marine biotechnology, high-value functional food and cosmetics, health services, bio-manufacturing, bio-breeding, etc.

◇ Traditional Chinese medicine.

## 2. New Materials

### Development Foundation

Xiamen's new material industry is focused on special metal materials, inorganic nonmetallic materials and advanced polymer materials; it covers optoelectronic information materials, alternative-energy materials, and advanced carbon nanomaterials. The new functional material industry has been included in the national strategic emerging industrial clusters. In 2023, the output value totaled RMB 100.78 billion. Major higher-education and research institutions in Xiamen include Xiamen University, Huaqiao University, Xiamen University of Technology, Xiamen Materials Academy of CSIC No.

725 Institute, and the CAS Xiamen Rare Earth Materials Institute. Moreover, there are 34 corporate technology centers (including eight at the national level and eight at the provincial level), as well as eight engineering technology research centers (including five at the national level and three at the provincial level) and 23 key laboratories. Representative enterprises include Xiamen Tungsten, Xiamen Tungsten New Materials, Xiashun Holdings, Hengkun New Materials, Dangsheng New Materials, Xiamen Changsu, HMT (Xiamen) New Technical Materials, and Yanjan New Materials.

### Development Priorities

- ◇ Lithium-ion battery anode materials, diaphragm materials and high energy density battery systems, which are aligned with Xiamen Tungsten alternative-energy cathode materials to achieve lithium-ion battery and materials industry agglomeration.
- ◇ High-performance anticorrosive coatings, advanced coating materials, fiber composites, high-temperature composite filter media and functional membrane materials and their applications in aerospace, high-speed rail, shipping, environmental protection and other fields.
- ◇ R&D and manufacturing enterprises in the field of

polymer materials.

- ◇ Technologically advanced SMEs, incubators and other new-style R&D institutions in the fields of advanced structural materials, high-performance composite materials, high-end metal structural materials, life and health materials, nano-materials and carbon fiber materials.
- ◇ To bring in R&D, application and industrialization enterprises in new materials represented by graphene which are capable of providing entrepreneurial incubation and industrialization medium support.

### 3. New Energy

#### Development Foundation

Currently, Xiamen's new energy industry is concentrated in lithium-ion battery manufacturing. Enterprises that have settled in Xiamen include CATL Xiamen, CALB, Hithium and Ampac. In 2023, an output of 79.4 billion yuan was achieved. The operation of CATL Xiamen New Energy Technology, CALB, and Ampac, all leaders in the field of domestic power batteries, will further advance the high-quality development of Xiamen's new energy industry. CATL and Xiamen University have inked a contract to jointly establish the CATL Xiamen New Energy Research Institute, which

leverages CATL 21C Innovation Lab and Tan Kah Kee Innovation Lab to collaborate on organizing and planning technology industry projects in key areas such as smart energy, energy storage, high-power devices, and next-generation power batteries. Relying on the world-class facilities of Tan Kah Kee Innovation Lab, an advanced technology service platform will be built, and a school-enterprise joint talent training program will be launched to enhance the core competitiveness for the development of Xiamen's 100-billion-yuan new energy industrial clusters.

#### Development Priorities

## 4. Culture, Tourism and Creativity

### (1) Tourism

#### Development Foundation

Xiamen is home to 21 Class A scenic areas and over 100 other parks (sightseeing spots). In 2023, Xiamen recorded 110 million domestic and international tourist arrivals, with tourism revenue totaling RMB 156.7 billion. There are 4596 hostels and hotels in Xiamen, including 40 star-rated hotels, 20 five-star, and 38 premium hotels

of other class. There are 788 travel agencies, including 5 for Taiwan tours and 48 for overseas tours. Representative enterprises include: C&D China Travel, Xiamen Tourism Group, Fantawild, and Huaxia Cultural Tourism Group.

#### Development Priorities

◇ Core tourist attractions: theme parks, high-grade scenic areas, large-scale tourism experiencing bases, tourism complexes, etc.

◇ New forms of tourism business: cruise ships, yachts, sailboats, RV campsites, research tours, recuperation, sea recreation experiencing, etc.

◇ Culture-tourism fusion: tourism performing arts, film and TV tourism, intangible cultural heritage tourism, cultural tourism, red tourism, etc.

◇ Rural tourism: rural leisure vacation, characteristic towns, pastoral complexes, etc.

◇ High-end accommodation industry: international high-end accommodation brands, boutique theme hotels, boutique family inns, high-end hotel chains, etc.

◇ Smart tourism: OTA enterprises and tourism enterprises operating with 5G, AI, big data, mobile payment and related technologies.

## (2) Cultural and Creative Industries

### Development Foundation

Xiamen's film and TV industry, intelligent audiovisuals, digital content, creative design and other core content industries have advanced by leaps and bounds, and the agglomeration of high-end artwork businesses has increased significantly. Xiamen has also been included in China's first batch of national cultural export bases and

has become the permanent host city of the China Golden Rooster and Hundred Flowers Film Festival. In 2023, the total revenue reached RMB 228.66 billion. Representative enterprises include G-bits, 4399 Network, Read at Ten, Zhiding Interactive Media, CMC-Live, Migu Xinkong Culture Technology, Meitu, and Bojue Photography.

### Development Priorities

◇ The film and TV industry. Including film and TV program creation, shooting, production, distribution and screening, as well as film and TV finance, film and TV-related MICE, and other integrated services.

◇ The Internet audio-visual industry. including intelligent audio-visual content production, technical services, platform operation, education and training, copyright trading, terminal manufacturing, and other services.

◇ The cultural tourism industry. including services such as special tourism, shopping districts for cultural tourism, personalized tourism, intelligent tourism, etc.

◇ The creative design industry. Including industrial

design, fashion design and other professional design.

◇ The animation and gaming industry. Including facility construction, technology R&D, content production, festivals and exhibitions, game export and other services.

◇ The artwork industry. including artwork creation, artwork trading, platform construction, comprehensive services for artworks, etc.

◇ Music industry: including services such as creation of musical works, production, performance, copyright trading, branding activities, and platform construction.

## URBAN MODERN AGRICULTURE

### Development Foundation

Xiamen's urban modern agriculture comprises planting, animal husbandry, agricultural and sideline products, food processing, rural tourism, and ecological leisure agriculture. The city's seed and seedling industry has developed rapidly, resulting in four major brands relating to vegetables, fruits, flowers and prawns. Rural tourism has boomed. Twelve villages in the city have

been awarded the title of "Beautiful Leisure Village of China". Representative enterprises include Yinlu Food, Anjoy Food, Mingsui Grain & Oil, Yinxiang Group, Ruyiqing Group, China Green, Fuhuida Fruits & Vegetables, Haijia Flour, China Tea Xiamen, Empereur Tea, and Paili Holdings.

### Development Priorities

- ◇ Seed and seedlings. Vegetables, fruits, flowers, and aquatic products.
- ◇ Planting and breeding. Primarily production of main agricultural products.
- ◇ Processing of agricultural products. including manufacturing of canned beverages and processing of grain, edible oil, meat products, aquatic products, fruits,

vegetables, and feeds.

- ◇ Logistics and services relating to agricultural products. Wholesale markets, sales terminals, cold chain logistics, and agricultural conventions and exhibitions.
- ◇ Leisure agriculture and rural tourism. Sightseeing and leisure agriculture, and rural tourism.

## DISTRIBUTION MAP OF KEY AREAS FOR INVESTMENT

### 📍 Xiamen International Hub Port Areas

The planned area totals 37.4 square kilometers, including four major industrial parks.

1. Haicang Port Area specializes in trunk-road container transportation and transshipment in sea-railway combined transport. It also fosters port-related industries and is vigorously developing bonded, modern logistics, and shipping services.
2. Dongdu Port Area maintains container transportation and is developing international cruise ships and cross-strait roll-on/roll-off ships. It is also vigorously developing modern logistics and shipping elements aggregation service functions.
3. Xiang'an Port Area is strategically positioned as a regional sea, land, and air integrated transportation hub.
4. Qianchang Logistics Park: The primary functions include facilitating the connection of ports, developing sea-railway combined transport (including the China-European Railway Express), and improving supply chain logistics, bulk commodity trading platforms, and intercity distribution.

### 📍 Maluan Bay New Town

With a planned area of 41 square kilometers, Maluan Bay New Town is focused on developing life health, the intelligent industry, modern logistics, commerce, trade, culture, and tourism.

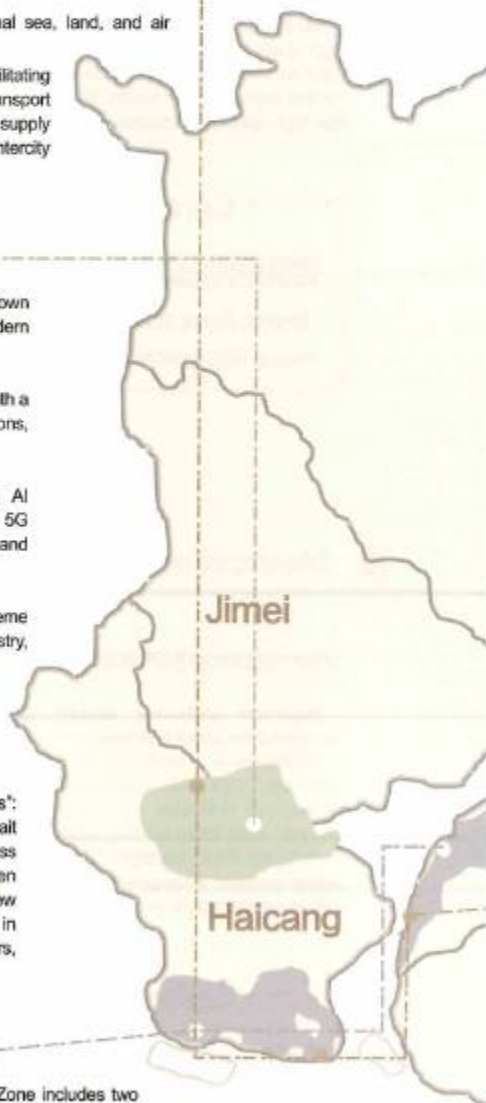

1. Xiamen Biomedical R&D Innovation Park  
Primarily introduces domestic and foreign leading enterprises, with a special emphasis on high-tech R&D centers, research institutions, and key laboratories.
2. Intelligent Sci-Tech Industrial Park  
Focused on developing high-level regional headquarters, AI technology applications, software and information services, 5G equipment and applications, high-end intelligent manufacturing, and cutting-edge industrial Internet.
3. Business, Culture, and Tourism Area  
Focused on developing large-scale culture and tourism theme park, coastal tourism complex, the cultural and creative industry, hotels, commerce, and TOD.

### 📍 Headquarters Clustering Area

The previous introductory text: "One Base with Multiple Centers": North Hubin Road Super Headquarters Base, Cross-Strait Regional Financial Center, Guanyinshan-Wuyuan Bay Business Operation Center, and emerging business centers outside Xiamen Island such as Haicang Bay, Maluan Bay, Xinglin Bay, Tong'an New Town, and Xiang'an Southern Area. The priority is to bring in large-scale domestic and overseas corporate headquarters, regional headquarters, and functional headquarters.

### 📍 Xiamen Area of Fujian Pilot Free Trade Zone

Covering an area of 43.78 square kilometers, the Free Trade Zone includes two major functional parks. Xiangyu Park covers 19.37 square kilometers, and Haicang Park covers 24.41 square kilometers. The area is focused on developing aviation services, international trade, shipping logistics, cross-border e-commerce, financial services, cultural trade and services, integrated circuit R&D and design, the headquarters economy, and high-end manufacturing industries.

### Tongxiang High-Tech New Town

Tongxiang High-Tech New Town's planned land area is 47.6 square kilometers. The Tong'an section is focused on new energy, new materials, and high-end equipment manufacturing. The Xiang'an section is focused on high-tech industries such as panel display, semiconductors, integrated circuits, new energy, and new materials.

### Xiamen Science City

With a planned area of 34 square kilometers, Xiamen Science City will cluster high-level innovation platforms, high-level innovation teams, and high-performance outcome incubation and transformation carriers, to create a place where original innovation originates, innovation elements gather, future industries develop, and a new green and intelligent city will rise, and to become an innovation hub that can support and serve major regional strategies set by the state.

The Xiamen Science City Fund Bay Area will focus on attracting venture funds and other fund management organizations and developing new-type financial business patterns, to create a featured financial services cluster heights integrating production, investment, and financing.

### Xiang'an New Town

The planned area for Xiang'an New Town is 66.37 square kilometers. Centering around the Xiamen Olympic Sports Center and driven by the Xiamen International Expo Center, Fengxiang New Town Area is promoting the integrated development of sports culture, conference and exhibition business, headquarters economy, leisure and tourism, health and entertainment industries. Jinhai Area mainly relies on the comprehensive development of the Administrative Service Center Railway Station to improve the quality of urban development, and builds Xiang'an city center area around the Dongshan public building group and the southern river branch. The Marine Area is building a "6+2" industrial system dominated by marine biomedicine and products, marine high-end equipment and new materials, marine information and digital industry, fishing port economy and marine fingerling industry, marine cultural and creative industry, high-end coastal tourism, blue carbon, and comprehensive utilization of seawater, represented by marine R & D innovation, and supported by marine headquarters economy.

### Xiang'an Southern Area

The long-term planned area for Xiang'an Southern Area is 98.6 square kilometers, and the launched area at present is about 21 square kilometers (including the Lianhe Area of Sci-tech Town and part of the Airport Comprehensive Bonded Zone). This area is building a 4+3 industrial system based on the four pillar industries of the airport-related industry, air transportation, green energy and new materials, life and health, and the new generation of information technology, supplemented by the three modern service industries of the cultural and creative industry, financial services, and scientific and technological services. By focusing on cutting-edge scientific and technological fields such as hydrogen energy and energy storage as well as semiconductors, it strives to build a scientific and technological innovation source in the bay area.

### Airport Area

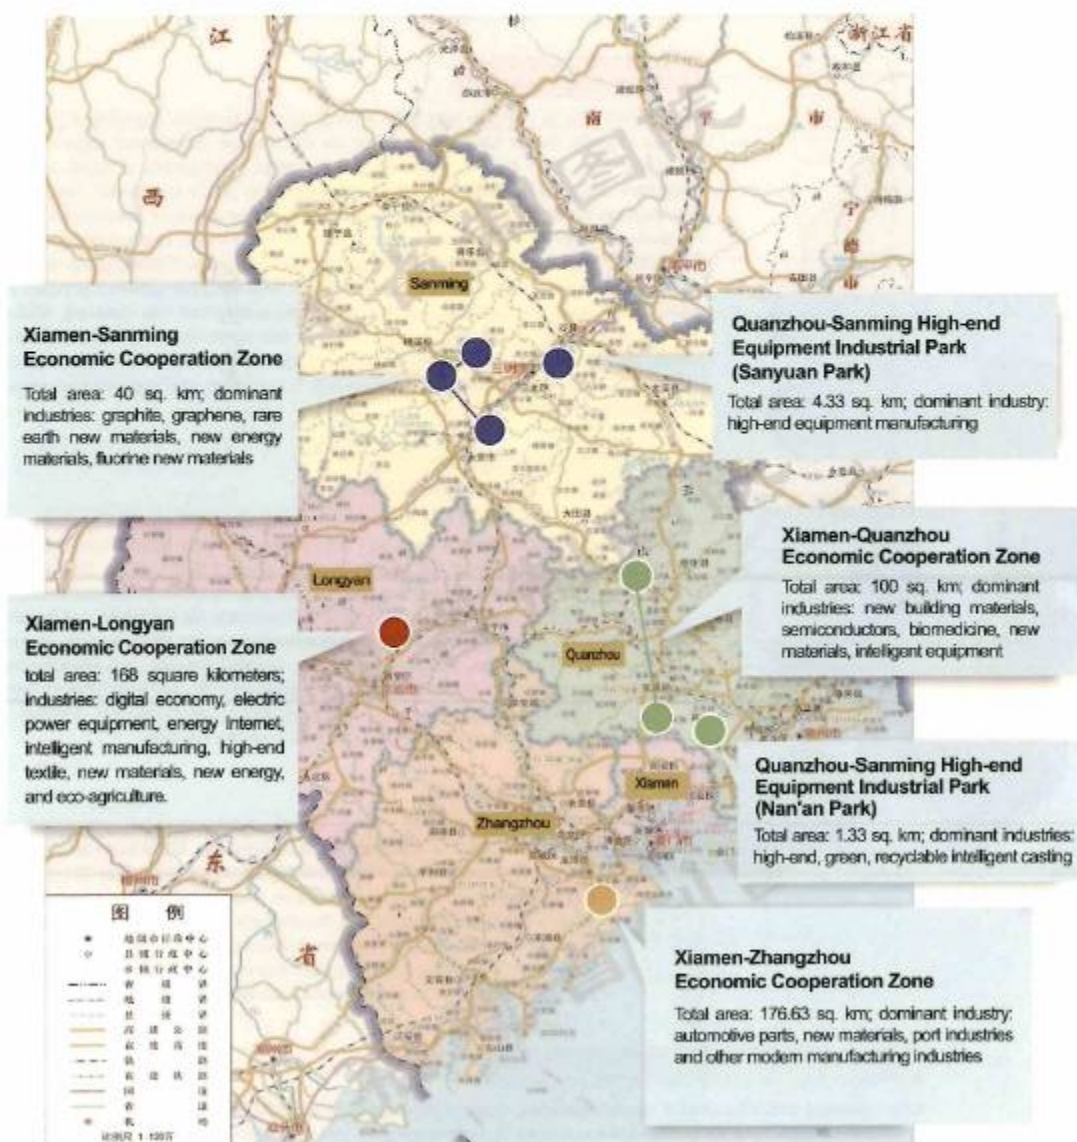

This area is located in Xiang'an District, Xiamen City, with a total planned area of 33.81 square kilometers. This area is focused on building a three-dimensional industrial system composed of air transport, aviation science innovation and the modern service industry. Its nine development priorities include air transport services, air cargo logistics, aviation maintenance, aviation manufacturing, air sci-tech manufacturing, cultural tourism and leisure, supporting living facilities, international trade and the headquarters economy.

### Cross-Strait Regional Financial Center

With a planned land area of 22.8 square kilometers, Cross-Strait Regional Financial Center features finance office and headquarters economy as its core functions, supported by commercial and business services. It will be created into a regional financial center facing the world, as well as an important headquarters economy cluster along the southeast coast that brings together the headquarters of conglomerates and investment centers, research and development centers, financial centers, and clearing centers.

## SPATIAL LAYOUT OF COORDINATED DEVELOPMENT IN SOUTHWEST FUJIAN

Fujian Province is taking Xiamen as the leader in promoting the collaborative development of Xiamen, Zhangzhou, Quanzhou, Sanming and Longyan cities. Spearheading the regional development, Xiamen has set out to build an industrial coordination system centered on industrial chains and value chains. The system will be characterized by gradient development, sound division of labor, and mutually complementary advantages.

Spatial Layout of Coordinated Development in Southwest Fujian

LAND USE FOR  
INDUSTRIAL PROJECTS

**Investment Intensity and Land Output Rate**

Industry	Investment Intensity (RMB millions per hectare)		Land Output Rate (RMB millions per hectare)	
	Control Value	Recommended Value	Control Value	Recommended Value
Computer, communication and other electronic equipment manufacturing	53-64	68-83	105-160	135-208
Automobile manufacturing	42-54	55-70	86-150	112-190
Electrical machinery and equipment manufacturing	39-42	50.7-54	75-120	98-155
General equipment manufacturing	38-41	54-57	48-119	62-155
Special equipment manufacturing	38-42	50-55	60-70	79-98
Non-ferrous metal smelting and rolling	39-40	54-55	56-110	78-154
Non-metallic mineral products	39	54	67	93
Chemical fiber manufacturing	32-54	42-76	62-80	81-112
Rubber and plastic products	34	44	65	85
Pharmaceutical manufacturing	48-67	72-100	60-97	90-145
Tobacco products	38	57	100	150

Note: The investment intensity of fixed assets and the land output rate shall not be lower than the control value for the industry, and projects reaching the recommended value will be given priority in land supply.

## Floor Area Ratio and Average Land Tax Revenue

Industry	Floor Area Ratio	Average Land Tax Revenue (RMB millions per hectare)
Computer, communication and other electronic equipment manufacturing	2.0	6-6.75
Automobile manufacturing	1.2	6-7
Electrical machinery and equipment manufacturing	1.3	6.75-7
General equipment manufacturing	1.2	3-5.25
Special equipment manufacturing	1.2	5.25-5.3
Non-ferrous metal smelting and rolling	1.2	3.5-5.9
Non-metallic mineral products	1.2	3
Chemical fiber manufacturing	1.5	3-4.3
Rubber and plastic products	1.5	3
Pharmaceutical manufacturing	1.5	3.25-5.5
Tobacco products	1.6	45

Note: Based on the Xiamen Construction Land Control Standards for Industrial Project (2020 Edition) (XM Gov. Ofc. [2020] No. 35)

## LAND USE FOR LOGISTICS PROJECTS

Control indicators for floor area ratios: In principle, the floor area ratio for logistics land use shall not exceed 3.0 and shall meet the following requirements: 1. For agricultural and sideline-product and cold-chain logistics projects, the floor area ratio shall not be lower than 1.5 if the project is located in Siming or Huli District, or 1.2 if the project is located in any other district; 2. For industrial warehousing and transport logistics projects, the floor area ratio shall not be lower than 1.8 if the project is located in Siming or Huli District, or 1.5 if the project is located in any other district; 3. For commercial warehousing logistics projects, the floor area ratio shall not be lower than 2.0 if the project is located in Siming or Huli District, or 1.5 if the project is located in any other district; 4. For hub supporting logistics facilities such as port wharfs and airport and railway freight yards, the floor area ratio shall not be lower than 0.8 if the project is located in Siming or Huli District, or 0.5 if the project is located in any other district.

Building coefficient for logistics land use  $\geq 50\%$  (excluding land use for hub supporting logistics facilities such as port wharfs and airport and railway freight yards)

Green space rate for logistics land use  $\leq 15\%$

[Note: Based on the Measures of Xiamen for the Administration of Public Transfer of logistics land (X.Z.Y.G.H. [2020] No. 258)]

## HUMAN RESOURCES

### Higher Education

Xiamen is home to 18 tertiary institutions, including Xiamen University, Huaqiao University, Jimei University and Xiamen University of Technology. These institutions have a total enrollment of 246,800 students, and produce 61,900 graduates. In the 2023-2024 academic year, these institutions admitted 80,400 students and had 35,600 enrolled graduate students.

### Vocational Education

There are 22 city-level secondary vocational schools (including nine technical schools) with 66,000 enrolled students, ensuring a multi-level skilled workforce for the city's industries.

### Salary Costs

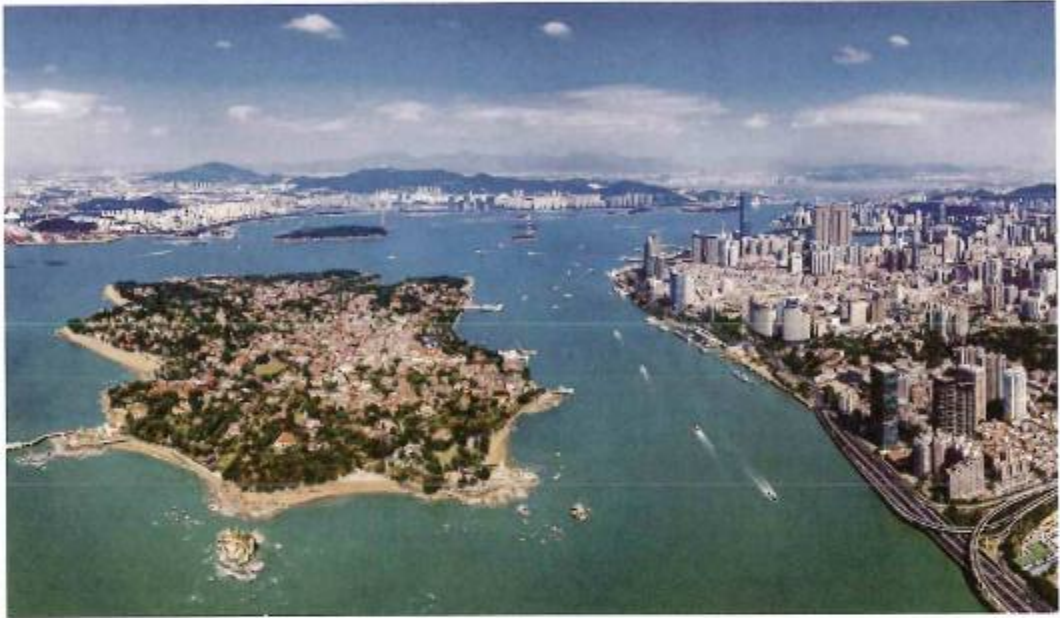

The average annual salary of employees in Xiamen non-private sectors in 2023 was 123,081 yuan; the average salary of in-service employees (including workers under labor dispatch) is 126,571 yuan.

Xiamen's minimum monthly salary is RMB 2,030.

### Social Insurance Costs

Xiamen Housing Provident Fund contribution ratio.

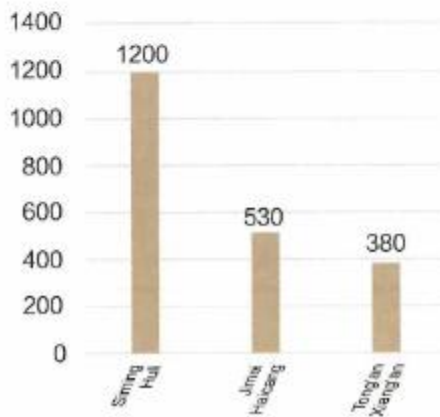

Enterprises can independently determine the contribution ratio within the range of 5% to 12%.

## LAND COSTS

### Benchmark Industrial-Use Land Prices

Benchmark Industrial-Use Land Prices in Xiamen's Districts (RMB/sq. m)

### Industrial Workshop Rents

(RMB/sq. m/month)

Huli	28-58
Jimei	12-30
Haicang	15-35
Tong'an	15-25
Xiang'an	13-35
Free Trade Zone	15-35
Torch High-Tech Zone	12-45

## ENERGY COSTS

### Industrial Workshop Rents

According to the requirements of the Notice of the National Development and Reform Commission on the Transmission and Distribution Prices of Provincial Grids in the Third Supervisory Cycle and Related Matters (NDRC Price〔2023〕No. 526), users who implement the industrial and commercial electricity price (or large-scale industries and general industry and commerce) (hereinafter referred to as "industrial and commercial users") with electricity consumption at 315 kVA and above shall be subject to the two-part electricity price. The price of electricity for industrial and commercial users consists of the feed-in tariff, the cost of line losses in the feed-in chain, the transmission and distribution tariff, the system operating costs, and government funds and surcharges. According to the document requirements of Fujian Provincial Development and Reform Commission (M.F.G.S.J. [2021] No.615), all industrial and commercial users shall into market-oriented transactions. For those who have not yet directly purchased electricity from the electricity market, the power grid enterprises shall act as an agent to purchase electricity for them. The feed-in tariff for agency purchasers are determined by the market. Power grid enterprises will announce the feed-in tariff for agency purchasers for the following month 3 days before the end of each month. You can refer to the tariff information published on the power supply business platform, the Online Grid APP, and the relevant WeChat official account.

## Gas Supply

As of December 2023, Xiamen had over 3591 kilometers of gas pipelines and 756,100 pipeline gas users. Internationally renowned gas suppliers operate in Xiamen, with ample supply guaranteed.

<b>Xiamen Natural Gas Prices</b> (RMB/cubic meter) (effective as of Nov. 1, 2020)	
Gas for residential use (this rate also applies to rental space whose renovation meets the required standards)	3.274-4.911
Gas for non-residential use, including industrial and commercial uses (effective as of August 1, 2023)	≤4.068
Gas for needy households, low-income households with subsistence allowances, and priority households with special allowances (as approved by civil affairs authorities) and nursing homes and welfare institutions (as approved by civil affairs authorities)	3.274
Gas for schools	3.364

## Water Supply

Xiamen currently has 14 waterworks, producing 2.3035 million tons of water a day.

<b>Xiamen Urban Water Prices</b> (including wastewater treatment fees) (RMB/ton)		<b>Total</b>
	Water for residential use	3.2-7.6
Water for civilian use	Water for non-residential use (water for administrative institutions, the military, social bodies, schools, medical institutions, social welfare and security services, public infrastructure services, and social services)	3.2
Water for special industries	Sauna, carwash, foot bath, pure water	8.8
	Water for other industries	4.1

## COMMERCIAL FACILITIES AND SERVICES

### Commercial Office Buildings

Xiamen offers investors a wide range of high-end commercial office building options for investors. Office space is available not only in the well-established business districts along Lujiang Avenue-Island Ring Road and on North and South Hubin Roads, but also in the emerging business districts around the Cross-Strait Financial Center, Tong'an New Town, and Haicang Bay. By and large, office rents remain stable.

Administrative District	Location	Rent (RMB/sq. m/month)
Siming	North & South Hubin Roads	50-120

Xiamen Kalyuan Notarization Office of Fujian

### Judicial Appraisal Institutions

There are 20 judicial appraisal institutions and 266 judicial appraisers.

#### Representative Judicial Appraisal Institutions

Fujian Meiya Pico Judicial Appraisal Center (formerly Zhongzheng Judicial Appraisal Center)
Fujian Zhengtai Judicial Appraisal Center
Fujian Lisi Judicial Appraisal Office
The Forensic Center of the Third Institute of Oceanography of the Ministry of Natural Resources

## HOUSING SECURITY

Xiamen has built a multi-level housing security system covering all citizens. By the end of 2023, a total of 129,600 units were built. The first phase of the three government-subsidized metro communities of Xindian, Xiangping and Maluan Bay, as well as the second phase of those of Xindian and Xiangping, have been completed and successively delivered for use. The second phase of Maluan Bay and the third phase of Xiangping are under construction.

Attached: Map of Distribution of Government-Subsidized Housing in Xiamen

## PROCEDURE FOR ESTABLISHING A DOMESTIC ENTERPRISE

Applicant

A full set of materials conforming to the statutory format

### Application through Service Counters

The service counters at the government service centers at all levels accept application materials.

### Online Application

Application materials can also be submitted via the "One Stop Service" platform for the establishment and registration cancellation of business entities (<https://wssp.scjg.xm.gov.cn:4433/wssp/ywt.jsp>).

### Applying for a Business License

(Xiamen Administration for Market Regulation, half a workday)

### Download the service guide and reference text

searching and logging on to the Fujian Provincial Administrative Affairs Online Platform (<http://zww.fujian.gov.cn>), clicking to enter the Xiamen Branch Page, searching for "Company Incorporation Registration", and entering the guide page to download relevant documents or choosing to apply online.

### Making of Official Chops

An application can be filed simultaneously for making of official chops and the business license. The chop can be carved free of charge in 90 minutes and delivered door-to-door through express mail service.

### Application for Invoices

An application can be filed simultaneously for invoices and the business license. Invoices can be approved and issued in half a workday.

1

Government departments whose services involve "multiple certificates in one" matters obtain real-time information on the establishment registration information of business entities through the Xiamen "One License, One Code" Examination and Approval Information Sharing Platform of Xiamen Municipal Data Administration. They complete their internal procedures within their respective scopes of duties and responsibilities.

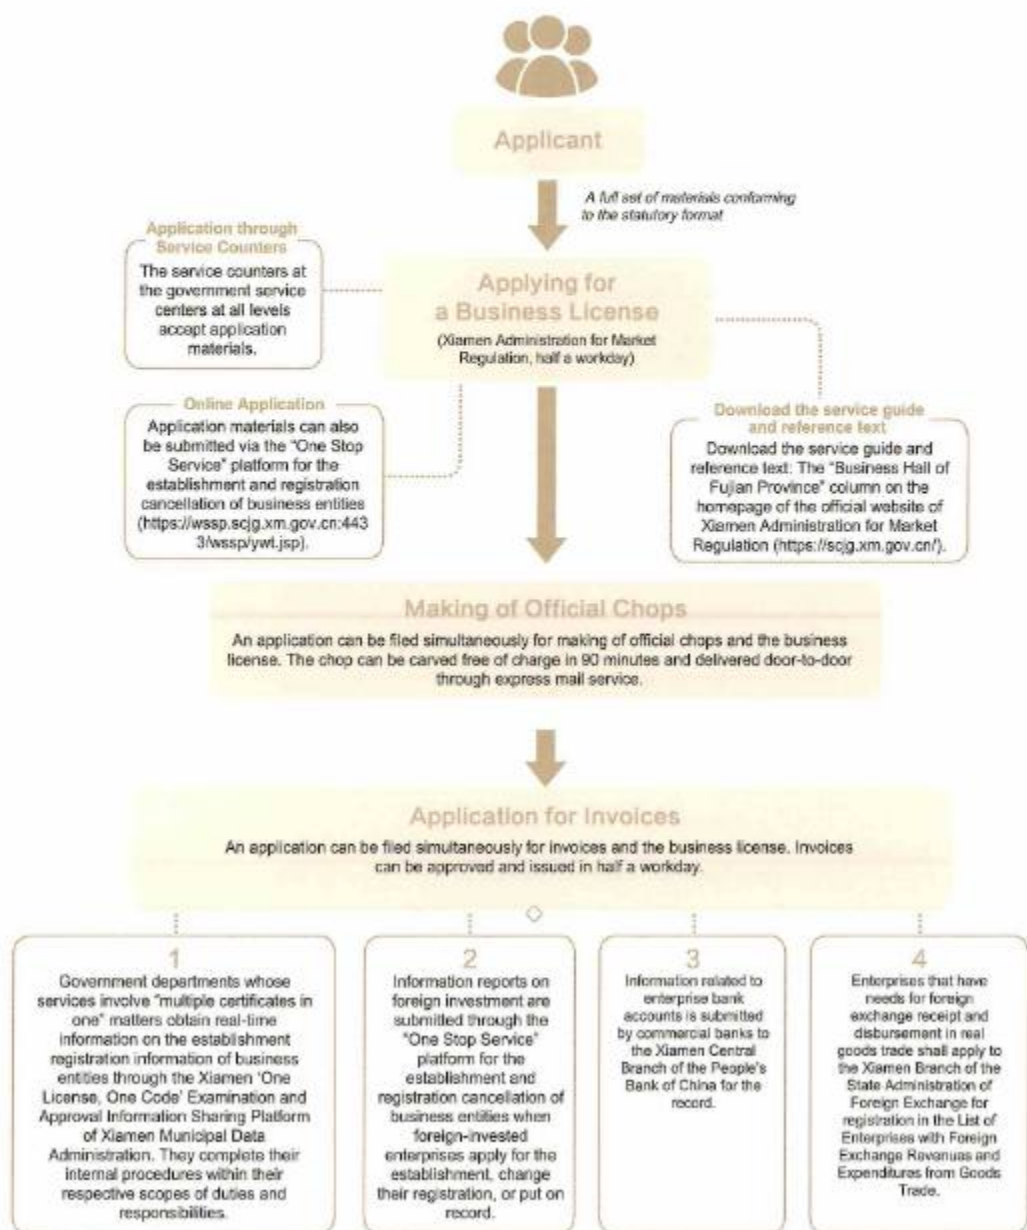

2

Information related to enterprise bank accounts is submitted by commercial banks to the Xiamen Central Branch of the People's Bank of China for the record.

3

Enterprises that have needs for foreign exchange receipt and disbursement in real goods trade shall apply to the Xiamen Branch of the State Administration of Foreign Exchange for registration in the List of Enterprises with Foreign Exchange Revenues and Expenditures from Goods Trade.

# PROCEDURE FOR ESTABLISHING A FOREIGN-INVESTED ENTERPRISE

## PILLAR INDUSTRIAL CLUSTERS

# LIST OF INVESTMENT OPPORTUNITIES IN XIAMEN

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
<b>(I) Electronic Information</b>					
<b>1. Flat Panel Displays</b>					
1.1	Flat Panel Displays	Projects for the core materials, new electronic components, and key parts and terminal products of new display technologies such as OLED, Mini-LED, and Micro-LED.	Tongxiang High-Tech New Town; Torch (Xiang'an) Industrial Zone; Torch Huli Park	Torch High-Tech Zone Administrative Committee	Huang Xiaoying 0592-5380187
1.2	Key Upstream Components and Materials for Flat-Panel Displays	Projects for LCD panels/ AMOLED panels/ touchscreen-related liquid crystal materials, organic light-emitting materials, substrate PI materials, polarizers, light guides, optical films/composite films, wet electronic chemicals, photoresists, glass substrates, color filters, metal targets, metal photomasks/ mask plates, glues/optical adhesives, sandblasting/ melting and other products.	Tongxiang High-Tech Town; Xiang'an Industrial Zone	Xiang'an District Bureau of Industry & IT	Chen HuiPeng 18259120495
1.3	New-Type Displays	To bring in Micro-LED, Mini-LED, flexible panels, OLED, quantum dots and other new display industrial projects; touch screen industrial projects adopting different technical routes; and vehicle-mounted, industrial control display, e-sports and other emerging application terminal product projects.	Tongxiang High-Tech New Town; Torch (Xiang'an) Industrial Zone; Torch Huli Park		
<b>2. Computers and Communication Equipment</b>					
2.1	Computer & Mobile Communication Equipment	Computer and mobile communication equipment brand owners (especially mobile tablets), OEM enterprises and industrial-chain supporting enterprises, cloud storage equipment, peripherals (such as new projectors), smart-home equipment, virtual reality technology, domestic server components, supporting parts manufacturing, 5G-related wireless equipment, small base stations, optical communication devices and other manufacturing projects	Tongxiang High-Tech New Town; Torch (Xiang'an) Industrial Zone; Torch Huli Park	Torch High-Tech Zone Administrative Committee	Wang Yang 0592-5380181 Zhou Changying 0592-5380179

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
2.2	Supporting Enterprises for Computers & Mobile Communication Equipment	Mobile communication industries with 5G commercialization as the core, integrated manufacturing industry, as well as basic components, supporting parts, IT services and other supporting and industrial-chain extension projects	Tongxiang High-Tech Town Tong'an Area	Tong'an District Bureau of Industry & IT	Hong Yaohui 0592-7558668
2.3	Aviation Manufacturing	Avionics systems, airport equipment, etc.	Xiang'an International Airport Area	Xiamen Airport Area Headquarters	Wu Miaojin 15750786053
<b>3. Semiconductors and Integrated Circuits</b>					
3.1	IC Design and Manufacturing Enterprises	Design enterprises for IoT chips, driver chips, power devices, compound semiconductor (GaAs and GaN) devices, and leading domestic and international wafer manufacturing enterprises	Tongxiang High-Tech New Town; Torch (Xiang'an) Industrial Zone; Torch Huli Park; Xiamen Software Park Xiamen Science & Technology Innovation Park; Haicang Information Industry Park; Haicang IC Design Park (Xiamen Center); Xiamen Science and Technology Industrial Group; Xiamen Airport North Base; Xiamen Cross-Strait IC Industry Park	Xiamen Municipal Bureau of Industry & IT; Tong'an District Bureau of Industry & IT; Xiang'an District Bureau of Industry & IT	Liu Yuxiang 0592-2886743 Hong Yaohui 0592-7558668 Chen HuiPeng 18259120495
3.2	LED Epitaxial Wafer and Chip Manufacturing, Packaging and Testing, as well as Application Product Development, Design and Manufacturing Projects	Automotive electronics, AI, e-sports, IoT and other new application markets; LED substrates, epitaxial wafers and chip R&D, manufacturing and packaging projects; as well as smart lighting, health lighting and other application product development and manufacturing industrial projects	Tongxiang High-Tech Town; Torch (Xiang'an) Industrial Zone; Xiamen Software Park, Phase III		
3.3	Manufacturing, Design, Packaging and Testing, Materials and Equipment R&D and Manufacturing Projects	IC design, manufacturing, packaging and testing, materials, equipment, and application product enterprises in the fields of IoT, automotive electronics, consumer electronics, AI, sensors, industrial control, commercial space, the low-altitude economy, etc.	Tongxiang High-Tech Town; Torch (Xiang'an) Industrial Zone; Xiamen Software Park, Phase III	Torch High-Tech Zone Administrative Committee	Wang Yang 0592-5380181
3.4	Compound Semiconductor Projects	Projects for the research, development, and manufacturing of substrates, epitaxy, devices (including optoelectronic devices, RF devices, and power devices), modules, and application products related to III-V and wide-bandgap compound semiconductors such as gallium arsenide, silicon carbide, gallium nitride, diamond, aluminum nitride, and gallium oxide. Also, projects for supporting equipment and materials.	Tongxiang High-Tech Town; Torch (Xiang'an) Industrial Zone; Xiamen Software Park, Phase III		

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
3.5	IC Design	To bring in key chip design projects for 5G, mobile intelligent terminal, network communication, security monitoring, optoelectronic, lighting, memory and other applications, Micro-LED, Mini-LED and other new display devices.	Xiamen Cross-Strait IC Industrial Park; Haicang IC Design Industrial Park (Xiamen Center) ; Haicang Semiconductor Industry Base	Huli District Bureau of Industry & IT; Huli District Bureau of Commerce; Haicang District	Shao Xinxin 13860166155 Yu Lixia 0592-5726297 Lai Zhiwei 18250867242 Zhang Anna 0592-6887763
3.6	IC Carriers	IC product R&D and design, high-end manufacturing, packaging and testing, trade settlement, personnel training and other projects			
3.7	IC Manufacturing & Packaging Testing	Advanced packaging and testing, wafer manufacturing, semiconductor, pan-semiconductor equipment and other enterprises and production lines, as well as packaging and testing projects	Haicang Semiconductor Industry Base; Haicang Information Industry Park		
3.8	Semiconductor epitaxial wafer and chip manufacturing, packaging and testing, and application product development, design and manufacturing.	Semiconductor epitaxial wafer and chip manufacturing and packaging, manufacturing of key materials, parts and components and other industrial projects	Haicang Information Industrial Park	Haicang District	Lai Zhiwei 18250867242 Zhang Anna 0592-6887763
3.9	Compound Semiconductors	4/6-inch compound (GaAs, SiC and GaN) device manufacturing and epitaxial wafer production line projects	Haicang Information Industrial Park		
3.10	Intelligent Sensors	Intelligent sensor application and industrialization projects in the key application fields of intelligent manufacturing, automotive electronics, the marine economy, consumer electronics and emergency security	Torch Plaza; Xiamen Intelligent Sensors and IoT Innovation Base	Torch High-Tech Zone Administrative Committee	Lian Jie 15959206395
3.11	Air Sci-tech Manufacturing	Integrated circuits, precision electronic components, display systems, etc.	Xiang'an International Airport Area	Xiamen Airport Area Headquarters	Wu Miaojin 15750786053
<b>4. Software and Information Services</b>					
4.1	Digital Economy	Introduction of enterprises in the fields of 5G, industrial design, information security, the digital cultural and creative industries, smart city and industry applications, IoT, big data, cloud computing, AI, blockchain and other industries.	Huli Digital Industry Science Innovation Park; Software Park Phase III; Electronic City-International Innovation Center; Maluan Bay Smart Sci-Tech Industrial Park A6, A7; Future Industry Sub-park of Xiamen Science and Technology Park (Advanced Manufacturing Park) ; Xiang'an Southern Area Emerging Science and Technology Innovation Industrial Park	Administrative Committee of Huli District Industrial Park; Huli District Bureau of Industry & IT Huli District Bureau of Commerce; Maluan Bay New Town Area Headquarters; Xiamen Information Group Co., Ltd.; Xiamen Light Industry Group Park Operation Co., Ltd.; Xiamen Municipal Administration Group Co., Ltd.	Shao Xinxin 13860166155 Yu Lixia 0592-5726297 Lin Yuanjun 13616046537 Lin Yuhua 13860466577 Zhu Huawei 13860436570 4007070701 Chen Taiqing 13950076249

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
4.2	Software and Information Services	Introduction of software and information service industry projects in the development of information and network security, big data and cloud computing, software research and development applications, IoT, etc.	Tong'an Area of Tongxiang High-Tech New Town; Tong'an New Town Area (Xiamen Science City Core Area); Maluan Bay Smart Sci-Tech Industrial Park A6, A7	Tong'an District Bureau of Industry & IT; Maluan Bay New Town Area Headquarters	Lin Yuchan 0592-7558669 Su Xiaoqing 0592-7558665
4.3	Software and Information Services	High-quality enterprises in the software and information service industries and related supporting industries such as artificial intelligence, metaverse, big data, film and television cultural creativity, digital creativity, and venture capital.	Xiamen Software Park Phase I	Torch High-Tech Zone Administrative Committee; Siming District Bureau of Science, Technology and Information	Xie Yuchen 15959208915 Huang Qilan 13559286863
4.4	Software and Information Services	Introduction of enterprises in the Internet fields, such as the digital cultural and creative industries and animation; in the industry application development fields, such as smart cities; in the emerging digital fields, such as big data, AI, cloud computing, blockchain and 5G applications; and in the key technology fields, such as industrial software and basic software.	Xiamen Software Park Phases II and III; Xiang'an Southern Area Emerging Science and Technology Innovation Industrial Park	Torch High-Tech Zone Administrative Committee; Xiamen Municipal Administration Group Co., Ltd.	Lin Yuanjun 13616046537 Lin Yuhua 13860466577 Huang Qilan 13559286863 Chen Taiping 13950076249
4.5	New-Generation IT Technology	Big data, cloud computing and AI enterprises.	Xiang'an Digital Economy Industrial Park	Xiang'an District Bureau of Industry & IT	Chen Huipeng 18259120495
4.6	Industry Application Terminals	Introduction of health care, industrial software, geographic information enterprises.	Xiang'an Digital Economy Industrial Park		
4.7	Kunpeng PC Supporting Software System Project	Operating systems compatible with Kunpeng PCs, such as Deep Technology and Kirin, and supporting middleware, database and application software projects.	Digital China Kunpeng Production Base Huawei Kunpeng Eco-center	Jimei District Bureau of Industry & IT	Chen Jianchao 15359316289
4.8	Intelligent Project of Electronic City - International Innovation Center	Introduction of software and information service enterprises in the fields of big data, cloud computing, AI, etc.	Electronic City - International Innovation Center	Jimei District Bureau of Development & Reform; Electronic City Investment Development (Xiamen) Co., Ltd.	Gao Lulin 18906005266 Shi Yujuan 13459200370
4.9	Supporting Project of Software Park Station of Rail Transit Line 1	Introduction of enterprises in the fields of 5G, industrial design, information security, the digital cultural and creative industries, smart city and industry applications, IoT, big data, cloud computing, AI, blockchain and other industries.	Jimei Software Park TOD Project	Xiamen Metro Transit-Oriented Investment and Development Co., Ltd.	Liang Zhixian 13606936204

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
<b>(II) Mechanical and Equipment Industry Cluster</b>					
<b>1. Automobile</b>					
1.1	Complete Passenger Vehicle Manufacturing	Complete vehicle (new-energy passenger vehicles) manufacturing projects of top domestic and international makers of passenger vehicles.	Jimei Mechanical Industry Concentrated Zone; Tong'an District	Xiamen Municipal Bureau of Industry & IT	Lu Mengchao 0592-2896871
1.2	Alternative-Energy Vehicles & Intelligent Vehicles	Supporting enterprises for key components of automotive batteries, motors and controls and for King Long; intelligent connected vehicles and key technologies; new-energy vehicle manufacturing projects.	Jimei Mechanical Industry Concentration Zone	Jimei District Bureau of Industry & IT	Chen Jianchao 15359316289
1.3	Joint Venture & Cooperation for Production of Special-Purpose Vehicles	Xiamen Public Transport Group has obtained qualifications to manufacture special vehicles and is currently seeking partners adept in marketing and technology to form joint ventures or cooperative enterprises for the production and marketing of various types of special vehicles, such as urban distribution vehicles, cold chain transport vehicles and engineering vehicles, by using its application scenarios.	Jimei Mechanical Industry Concentration Zone	Jimei District Bureau of Industry & IT	Chen Jianchao 15359316289
1.4	New-Energy Vehicle Electronics	Projects for vehicle-mounted hardware products, such as cameras, millimeter wave radars, LIDAR, ultrasonic radars, electric power steering systems (EPS) and other products.	Tongxiang High-Tech Town ; Xiang'an Industrial Zone	Xiang'an District Bureau of Industry & IT	Chen Huipeng 18259120495
1.5	Automobiles and Components	Advanced manufacturing projects related to complete vehicle manufacturing and components.	Smart Sci-Tech Industrial Park in North Maluan; Bay New Town Xinyang Industrial Park	Haicang District	Chen Jiongbin 0592-6887763
1.6	New-Energy Vehicle System Accessories	Key materials and components of fuel cell stacks, such as membrane electrode assemblies, gold-layer bipolar plates, graphite-based bipolar plates, proton exchange membranes (PEM), gas diffusion layer, etc., as well as system accessories such as air compressors/blowers, high pressure hydrogen storage relays, etc.	Tongxiang High-Tech Town; Xiang'an Industrial Zone	Xiang'an District Bureau of Industry & IT	Chen Huipeng 18259120495
1.7	Rare Earth Permanent Magnet Motor and Supporting Products	Leading domestic and international enterprises and R&D institutes in motor manufacturing technology, as well as supporting enterprises with materials and components for rare earth permanent magnet motor projects.	Houxi Industrial Cluster	Jimei District Bureau of Industry & IT	Chen Jianchao 15359316289

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
<b>2. Aviation Maintenance and Manufacturing</b>					
2.1	Aviation Maintenance	Airframe maintenance, engine maintenance, component maintenance, aircraft maintenance training, aviation material support.	Xiang'an Airport Area; Gaoqi Aviation Industrial Park	Xiamen Airport Area Headquarters; Xiamen Aviation Industry Co., Ltd.	Chen Yifan 18559696160 Chen Youquan 13599299932
2.2	Aviation Manufacturing	Aviation supporting manufacturing, airborne systems, airport equipment.	Xiang'an Airport Area; Gaoqi Aviation Industrial Park	Xiamen Airport Area Headquarters; Xiamen Aviation Industry Co., Ltd.	Chen Yifan 18559696160 Chen Youquan 13599299932
2.3	Airport High-tech	Electronic information, biomedicine, intelligent equipment, new materials, R&D and sci-tech innovation, and technical services	Xiang'an Airport Area	Xiamen Airport Area Headquarters	Chen Yifan 18559696160
<b>3. Construction Machinery</b>					
3.1	High-end Equipment Manufacturing	High-end equipment manufacturing, SMEs specializing in intelligent equipment technology, research institutes, incubators, civil-military fusion projects, new R&D institutes, etc.	Jimei Mechanical Industry Concentration Zone; Haicang Wencuo Area Industrial Site; Haicang Information Industrial Park; Tong'an Area of Tongxiang High-Tech New Town Tong'an New Town Area	Jimei District Bureau of Industry & IT; Haicang District; Tong'an District Bureau of Industry & IT	Chen Jianchao 15359316289 Ma Yiji 0592-6887763 Hong Yaohui 0592-7558668
3.2	Mold R&D and Manufacturing Project	Leading professional manufacturers, backbone enterprises, public service platforms, R&D institutes, medium- and high-end mold production enterprises in the field of molds, as well as supporting service enterprises for molds.	Houxi Industrial Cluster Mold Park	Jimei District Bureau of Industry & IT	Chen Jianchao 15359316289
<b>(III) Commerce and Trade Logistics</b>					
<b>1. Trade in Goods Industry</b>					
1.1	Cross-Border E-Commerce	Introduction of leading platform enterprises with outstanding core advantages, significant industry influence, expansive market potential and evident driving force in the realm of cross-border e-commerce, attracting them to set up regional branches or special companies in Xiamen. Introduction of leading cross-border e-commerce service enterprises to enhance the agglomeration effect of the industrial ecosystem.	Cross-Border E-Commerce Industrial Park, Airport North Area, etc.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone Economic Development Bureau	Wang Juanjuan 15396233808
1.2	Commodity Supply Chain	Introduction of core enterprises in the supply chain of commodities such as energy, agricultural products, pulp, chemical products, etc.	International Shipping Center; Sea World	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone Economic Development Bureau	Lin Yuting 15260232712

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
<b>2. Trade in Services Industry</b>					
2.1	International Trade	Import and export trade, bonded trade, cultural trade.	Xiang'an Airport Area; Comprehensive Airport Bonded Zone of Xiang'an International Airport (Preparatory)	Xiamen Airport Area Headquarters	Wu Miaojin 15750786053
2.2	Culture Tourism & Leisure	Medical tourism, study tourism, B&B tourism, and Xiaodeng Island tourism.	Xiang'an Airport Area	Xiamen Airport Area Headquarters	Wu Miaojin 15750786053
2.3	Headquarters Economy	Air transport headquarters, logistics and trade headquarters, professional services headquarters.	Xiang'an Airport Area	Xiamen Airport Area Headquarters	Wu Miaojin 15750786053
2.4	Fashion Consumption	Duty-free shopping, e-commerce experience shopping, specialty catering consumption, technology experience consumption.	Xiang'an Airport Area	Xiamen Airport Area Headquarters	Wu Miaojin 15750786053
2.5	Trade Services	E-commerce, bulk commodity trading, new retail, experiential consumption.	Siming District	Siming District Bureau of Commerce	Zhong Min 13794117971
<b>3. MICE Industry</b>					
3.1	Premium-Brand MICE Projects	Top-class and long-term domestic and international MICEs, focusing on six industrial clusters (Xiang'an aviation, biomedicine, new materials and new energy, flat-panel display, IC and marine economy), several future industries and the new economy, with the aim of building a number of premium-brand MICEs industrial chains.	Xiang'an New Town Area	Xiamen Bureau of Convention & Exhibition Affairs; Xiang'an District Bureau of Industry & IT	Wang Fulong 0592-2859880 Lan Yu 0592-7889831
3.2	Industry MICE Projects	Under the concept of "industry + MICE", plan, cultivate and attract specialized economic and trade exhibitions and related conferences and forums, and encourage organizers to run MICE projects in Xiamen.	Industrial parks, industrial bases, MICE venues, etc.	Xiamen Bureau of Convention & Exhibition Affairs	Wang Fulong 0592-2859880
3.3	Smart MICE Projects	To enhance the smart level of MICE venues and create high-level high-tech digital smart venues and MICE projects.	MICE venues, MICE projects, etc.	Xiamen Bureau of Convention & Exhibition Affairs	Wang Fulong 0592-2859880
3.4	Specialized MICE Project Platforms	To organize, host, collaborate as joint ventures for, and participate in MICE activities in related industries: the China International Fair for Investment and Trade, International Investment Forum, Xiamen Industrial Exposition, China Xiamen International Stone Fair, Cross-Strait (Xiamen) Cultural Industries Fair, China Xiamen International Buddhist Items & Crafts (Autumn) Fair, Xiamen International MICE Week, China (Xiamen) International Leisure Tourism Expo, China International Industrial Internet Innovation and Development Conference, Xiamen International Fashion Week, Xiamen International Ocean week, China Educational Equipment Expo, China International Advertising Festival, Chinese Materials Conference, National Conference on Oral Implantology, etc.	Industrial parks, industrial bases, MICE venues, etc.	Xiamen Bureau of Convention & Exhibition Affairs; Convention & Exhibition Promotion Center	Wang Fulong 0592-2859881 Li Hongren 13030895939

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
3.5	Sports Events	Undertake domestic and international sports events with Xiang'an New Sports Center as the core, focusing on cultivating and building regular indigenous-brand events, and make Xiamen a permanent venue for events such as the CBA League, China Badminton Open, Asian Club Cup, etc.	Xiang'an New Town Area	Xiang'an District Bureau of Industry & IT	Lan Yu 0592-7889831
3.6	Specialized MICE Projects	Cross-strait integration featured exhibitions, emerging exhibition industry formats.	Convention & Exhibition Center	Siming District Bureau of Commerce	Zhong Min 13794117971
<b>4. Modern Logistics</b>					
4.1	Regional Logistics Headquarters Project	Industrial development platforms integrating procurement trade, logistics distribution, supply chain finance and settlement, and regional operation management headquarters; high-quality logistics enterprises for developing procurement trade, logistics distribution, supply chain finance, regional operation headquarters, etc.	Qianchang Logistics Park	Xiamen Port High-Quality Development Headquarters; Jimel Bureau of Construction & Transportation	Jiang Kun 18675937738 Guo Xiong 1880228668
4.2	Projects Related to Modern Logistics	Modern logistics warehousing, cold chain logistics, shipping logistics, and green intelligence logistics, procurement logistics distribution center, sea-rail intermodal transport, etc.	Qianchang Logistics Park; Port Area of Southern Haicang District	Haicang District	Hong Ludong 15980668018
4.3	Logistics Warehousing	Modern logistics warehousing, cross-border commodity distribution center and distribution center projects.	Haitou Supply Chain Service Center; Haicang Comprehensive Bonded Zone	Xiamen Haitou Asset Management Co., Ltd.	Yao Wenhao 18559031177
4.4	Port Logistics	International shipping service platforms, international transit assembly enterprises, characteristic commodity logistics transfer and testing enterprises, cold chain logistics, ship trading, shipping finance, intelligent development, etc.; enterprises and projects aligned with the development of industries in the comprehensive bonded zone.	Xiamen Area of Fujian Pilot Free Trade Zone	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Zeng Zhaolu 0592-2632150  Liu Yi 13696922380
4.5	E-commerce Logistics and Intercity Distribution	To bring in regional distribution centers of e-commerce logistics and build Taiwan-oriented and Southeast Asia cross-border e-commerce hubs, and develop multimodal transport services such as sea-rail intermodal transport.	Qianchang Logistics Park; Qianchang Railway Large-Scale Freight Yard; Xiang'an Neicuo Industrial Concentration Zone; Xiamen Area of Fujian Pilot Free Trade Zone	Xiamen Port High-Quality Development Headquarters; Xiang'an District Bureau of Construction & Transportation; Jimel Bureau of Construction & Transportation; Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Jiang Kun 18675937738 Su Wusheng 18259255092 Guo Xiong 1880228668 Zeng Zhaolu 0592-2632150

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
4.6	Procurement Logistics Distribution Center	To bring in investors to build a procurement logistics distribution center.	Qianchang Logistics Park; Qianchang Railway Large-Scale Freight Yard; Xiamen Area of Fujian Pilot Free Trade Zone; Xiang'an Neicuo Industrial Concentration Zone	Xiamen Port High-Quality Development Headquarters; Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone; Xiang'an District Bureau of Construction & Transportation	Jiang Kun 18675937738 Zeng Zhaolu 0592-2632150 Su Wusheng 18259255092
4.7	Air Transport Industry	Air passenger transport, air cargo, cross-border enterprise e-commerce, supply chain logistics and other projects.	Xiang'an Airport Area; Comprehensive Airport Bonded Zone of Xiang'an International Airport (Preparatory)	Xiamen Airport Area Headquarters; Xiang'an District Southern Area Development and Construction Headquarters; Xiamen Iport Group	Wu Miaojin 15750786053 Lin Huimin 18006902760  You Lu 13850009534
4.8	Aviation Logistics	Procurement and distribution, cross-border e-commerce logistics, aviation bonded logistics, cold chain logistics, bonded trade and display and other platforms and enterprises, as well as bonded processing, financial leasing, flight training, comprehensive foreign trade services and other high-end value-added service enterprises. To bring in airlines for strategic cooperation in setting up base companies, and to bring in cargo airlines and logistics companies to conduct airport logistics business.	Xiang'an Airport Area; Comprehensive Airport Bonded Zone of Xiang'an International Airport (Preparatory); Gaoqi International Airport	Xiamen Airport Area Headquarters; Xiang'an District Southern Area Development and Construction Headquarters; Xiamen Iport Group	Wu Miaojin 15750786053 Lin Huimin 18006902760 You Lu 13850009534
<b>(IV) Financial Services Industrial Cluster</b>					
<b>1. Licensed Finance</b>					
1.1	Headquarters, Specialized Subsidiaries and Regional Branches of Financial Institutions	Attraction of domestic and foreign financial institutions to set up headquarters, regional branches, specialized subsidiaries and characteristic financial business operating institutions to expand the system of licensed financial institutions.	Siming District, Huli District, Xiamen Area of Fujian Pilot Free Trade Zone	Xiamen Municipal Financial Office	Lin Hulwen 0592-2853813
1.2	Special financial business divisions of financial institutions and capital business institutions	Attraction of the headquarters of domestic and overseas institutions to set up characteristic business divisions and characteristic commercial institutions engaged in wealth finance, cross-strait and the "Belt and Road" finance, green finance, gold finance and fintech innovation, as well as capital operation centers, payment and settlement centers, fund lending centers, etc.	Siming District, Huli District, Xiamen Area of Fujian Pilot Free Trade Zone	Xiamen Municipal Financial Office	Lin Hulwen 0592-2853813

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
<b>2. Industrial Finance</b>					
2.1	Green Finance	Introduction and cultivation of professional third-party service agencies, evaluation agencies, and carbon asset management companies in the realm of green finance to optimize the green finance service capabilities.	Siming District, Huli District, Xiamen Area of Fujian Pilot Free Trade Zone	Xiamen Municipal Financial Office	Sun Qinghui 0592-2853853
<b>3. Wealth Finance</b>					
3.1	Private Equity Fund	Introduction of private securities investment funds, private equity investment funds, and their management institutions.	Private Equity Fund Agglomeration Area	Xiamen Municipal Financial Office	Lin Huiwen 0592-2853813

## STRATEGIC EMERGING INDUSTRY CLUSTERS

<b>(I) Biomedicine Industry Services</b>					
<b>1. Innovative Drugs</b>					
1.1	Innovative Drugs and High-End Preparations	New vaccines, recombinant protein drugs, bio-macromolecule drugs, innovative small molecule drugs, small nucleic acid drugs, targeted drugs and improved new drugs; innovative chemical-drug design, screening and verification platforms; new drug delivery and complex slow-release control technology platforms.	Xiamen Biopharmaceutical Port (Biomedical Incubator, Biomedical Pilot and Industrialization Base, Biomedical Industrial Park, Collaborative Center of Biomedical Innovation & Entrepreneurship, Biomedical Phase V Park, Maluan Bay Biomedicine R&D Innovation Park)	Haicang District; Xiamen Haicang Biotechnology Development Co., Ltd.	Chen Ziyang 0592-6887763 Zheng Rongwei 0592-6881507
1.2	Innovative Drugs	Vaccines, recombinant protein and peptide drugs, antibody drugs and other biological drugs; projects for high-end modern biotechnology development.	Xiang'an Digital Economy Industrial Park; Xiang'an General-purpose workshops; Marine High-Tech Industrial Park	Xiang'an District Bureau of Industry & IT	Chen Huipeng 18259120495 Guo Jiaxiang 0592-2021801

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
<b>2. High-Performance Medical Devices</b>					
2.1	Medical Instruments	In vitro diagnostic reagents and key materials for immunodiagnostics, molecular diagnostics and POCT, as well as new-generation fully automated diagnostic equipment, etc.; artificial organs, high-end implantable and interventional products for cardiovascular and neurological applications; high-end medical imaging equipment, tumor treatment equipment, respiratory equipment and consumables and other high-end medical devices; telemedicine equipment, intelligent medical systems, etc.	Xiamen Biopharmaceutical Port (Biomedical Incubator, Biomedical Pilot and Industrialization Base, Biomedical Industrial Park, Collaborative Center of Biomedical Innovation & Entrepreneurship, Biomedical Phase V Park, Maluan Bay Biomedicine R&D Innovation Park)	Haicang District; Xiamen Haicang Biotechnology Development Co., Ltd.	Chen Ziyang 0592-6887763 Lin Zhiqin 0592-6881887
2.2	Medical Equipment	Domestic alternative medical imaging R&D and production projects	Tongxiang High-Tech New Town; Torch (Xiang'an) Industrial Zone; Torch Hull Park	Torch High-Tech Zone Administrative Committee	Huang Kai 17602188737
2.3	Medical Instruments	Development of chronic disease monitoring and management, wearable remote diagnosis and treatment, remote health management, and other health management equipment and high-performance medical devices.	Xiang'an Digital Economy Industrial Park; Xiang'an General-purpose workshops	Xiang'an District Bureau of Industry & IT	Guo Jiaxiang 0592-2021801
<b>3. Industrial Services and Others</b>					
3.1	Biomedicine Industry Services	Professional medical testing laboratories, medical imaging diagnostic centers, pathology diagnostic centers and other third-party testing; modern pharmaceutical e-commerce, chain management, logistics and distribution of pharmaceutical services circulation; contract research organizations (CROs), contract manufacturing organizations (CMOs), contract development and manufacturing organizations (CDMOs) and other industrial application infrastructure platforms and enterprises.	Xiamen Biopharmaceutical Port (Biomedical Incubator, Biomedical Pilot and Industrialization Base, Biomedical Industrial Park, Collaborative Center of Biomedical Innovation & Entrepreneurship, Biomedical Phase V Park, Maluan Bay Biomedicine R&D Innovation Park)	Haicang District; Xiamen Haicang Biotechnology Development Co., Ltd.	Chen Ziyang 0592-6887763 Huang Ju 0592-6881507
3.2	High-value Health Foods and Special Medical Foods	Develop high-value health foods using marine biotechnology; special medical purpose foods, etc.			
3.3	Digital Economy, Health Care Big Data	Introduction of cutting-edge technologies such as artificial intelligence plus, medical and health big data, cloud computing, 5G Internet of Things, blockchain, etc., and introduction of the next generation of digital diagnosis and health service products, etc.	Xiamen Xiang'an Digital Economy Industrial Park	Digital Economy Industrial Park	Guo Jiaxiang 0592-2021801
3.4	Biopharmaceuticals and Health	Biopharmaceuticals and health (introduction of biomedicine, high-end medical devices, health equipment, health management services and other industries).	TIB Biotech Park	Tong'an District Bureau of Industry & IT	Lin Yuchan 0592-7558669

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
3.5	Wetland Park TOD Technology and Health Headquarters	Introduction of technology and health growth headquarters (integrated headquarters, regional headquarters, functional headquarters, and growth headquarters). The technology category includes: computer, server R&D, new display R&D, intelligent component R&D, big data, cloud computing, artificial intelligence, information security, intelligent automotive component R&D, autonomous driving, software R&D (industrial software and embedded software preferred), intelligent products and equipment, new materials, green building; the health category includes: in vitro diagnostic services and equipment R&D, implanted & interventional materials and equipment, smart medical care, Internet medical care, biomedical information technology services, medical beauty, and health consumption.	Supporting Project of Wetland Park Station of Rail Transit Line 2	Xiamen Metro Transit-Oriented Investment and Development Co., Ltd.	Liang Zhixian 13606938204
3.6	Cell and Gene Therapy Projects	Key technology enterprises or CDMO service enterprises for gene editing, vector construction, cell cultivation and other cell and gene therapy.	Tongxiang High-Tech New Town; Torch (Xiang'an) Industrial Zone; Torch Huli Park	Torch High-Tech Zone Administrative Committee	Huang Kai 17602188737
<b>(II) New Materials</b>					
1	New Functional Materials	1. Projects for the development of new metallic functional materials, rare earth functional materials, new membrane materials, functional glass and new optical materials, semiconductor materials, new-energy materials, functional polymer materials and other new functional materials; 2. Projects for the development of environmentally-friendly, special-function, high-performance rubber and plastic materials, membrane materials, composite fibers, bio-based materials, graphene, fullerene application materials, etc.	Haicang District; Jimei District; Torch High-Tech Zone	Xiamen Municipal Bureau of Industry & IT	Liu Yuxiang 0592-2896743
2	New Energy and New Materials	Battery materials, hydrogen production and storage materials, perovskites, and other new photovoltaic materials, superconducting materials, nanomaterials, advanced polymers and composite materials.	Haicang New Energy and New Materials Industrial Park	Haicang District	Fang Yifeng 0592-6887763
3	New Materials	Manufacturing and other high-tech industrial projects for new materials, new energy, energy conservation and environmental protection, and high-end equipment.	Tongxiang High-Tech Town Tong'an Area	Tong'an District Bureau of Industry & IT	Hong Yachui 0592-7568668

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
4	Graphene and Other Advanced Carbon Material Projects	Enterprises in the field of development, application and industrialization of advanced carbon materials represented by graphene (business incubation and industrialization carrier support available).	Specialized Incubator of Graphene New Materials in Xiamen Innovation and Entrepreneurship Park; Torch New Graphene Material Incubation Base	Torch High-Tech Zone Administrative Committee	Zheng Jinming 13290783636
5	Core Supporting Projects of Lithium-ion Battery	Projects for key components of lithium-ion batteries, including upstream materials for anodes and cathodes, separators, structural parts, current collectors, and related production equipment.	Tongxiang High-Tech New Town	Torch High-Tech Zone Administrative Committee	Luo Jing 18705925736
6	Next-Generation New Energy Battery Technology R&D and Industrialization Projects	Projects for the research and development, as well as industrialization, of next-generation new energy battery technologies, such as high-energy-density batteries, solid-state batteries, semi-solid-state batteries, and flow batteries. Also focus on projects for the development and industrialization of corresponding system materials.	Tongxiang High-Tech New Town	Torch High-Tech Zone Administrative Committee	Luo Jing 18705925736
7	Cutting-Edge Materials	Additive manufacturing materials, shape memory alloys, self-healing materials, intelligent bionic and metamaterials, liquid metals, new low-temperature superconducting materials, low-cost high-temperature superconducting materials and other complementary chain projects.	Tongxiang High-Tech Town; Xiang'an Industrial Zone	Xiang'an District Bureau of Industry & IT	Chen Huipeng 18259120495
<b>(III) New Energy</b>					
1	Complete New Energy Vehicle Manufacturing Project	Introduction of the complete vehicle manufacturing projects of internationally and domestically renowned new energy passenger or commercial vehicle enterprises.	Tongxiang High-Tech New Town	Torch High-Tech Zone Administrative Committee; Tongxiang High-Tech Town Construction Headquarters	Zhong Kaiwei 13860197493 Luo Jing 18705925736
2	Lithium-ion Battery Production Project	Introduction of solid-state, soft-pack and other multiform advanced lithium-ion battery production base projects for power, energy storage, consumer electronics and other industries.	Tongxiang High-Tech New Town	Torch High-Tech Zone Administrative Committee; Tongxiang High-Tech Town Construction Headquarters	Zhong Kaiwei 13860197493 Luo Jing 18705925736
3	Sodium Ion Battery Production Project	Introduction of advanced sodium ion battery production base projects for two-wheelers, energy storage and other industries.	Tongxiang High-Tech New Town	Torch High-Tech Zone Administrative Committee; Tongxiang High-Tech Town Construction Headquarters	Zhong Kaiwei 13860197493 Luo Jing 18705925736
4	Core Components Projects for New Energy Vehicles	Projects for the research and development, as well as production, of core components for new energy vehicles, including electric motors, electronic controls, battery management systems, and vehicle control systems.	Tongxiang High-Tech New Town	Torch High-Tech Zone Administrative Committee; Tongxiang High-Tech Town Construction Headquarters	Zhong Kaiwei 13860197493 Luo Jing 18705925736

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
5	Lithium-Ion Battery Downstream Application Industrialization Projects	Projects for the downstream application of lithium-ion batteries, such as lithium-ion battery packs, modules, and system integration projects.	Tongxiang High-Tech New Town	Torch High-Tech Zone Administrative Committee; Tongxiang High-Tech Town Construction Headquarters	Zhong Kaiwei 13860197493 Luo Jing 18705925738
<b>(IV) Cultural Tourism and Creativity</b>					
<b>1. Cultural and Creative Industries</b>					
1.1	Film & TV Industry	Enterprises engaged in the creation, shooting, production, distribution and screening of film and TV works, equipment rental, film & TV technology, actor brokerage, training, base operation and other activities; film & TV industry fund projects.	Siming Software Park Phase I & Phase II, Guanyinshan Area; Maritime Silk Road (Xiamen) International Film Industry Base, Huli Special Zone 1980 Creative Industry Park, Liyuan Future Film World; Haicang Yaoda Film & TV Industrial Park, Cangjiang Cultural and Sports Center, China (Xiamen) Intelligent Audio-Visual Industry Base Haicang Expansion Area; Jimel Chengyi International Business Center Film & TV Headquarters Area, Xiamen Film & TV Shooting Base, Jimel Film & TV Industry Park; Tong'an New Town Area; Xiang'an New Town Area; Xiang'an Southern Area Emerging Science and Technology Innovation Industrial Park.	Siming District Cultural Development Office; Huli District Cultural Development Office; Haicang District Cultural Development Office; Jimel District Cultural Development Office; Tong'an District Cultural Development Office; Xiang'an District Cultural Development Office; Xiamen Municipal Administration Group Co., Ltd.	Chen Zhongxin 13695027233 Luo Lan 0592-5722797 Zhou Yu 0592-6050510 Zhang Hongbo 15960378801 Liu Gang 0592-7023251 Yu Qingdong 0592-7886636 Chen Taiqing 13950076249
1.2	Internet Audio-Visual Industry	Introduction of upstream and downstream enterprises in the industry chain of internet audio-visual content creation and production, integrated distribution, review and broadcast control, technology research and development, telecommunications value-added services, and intelligent hardware research and development.	Siming Software Park Phase I and II, Guanyinshan Area; Jimel Software Park Phase III; China (Xiamen) Intelligent Audio-Visual Industry Base Haicang Expansion Area; Tong'an New City Area; Xiang'an New City Area; Xiang'an Southern Area Emerging Science and Technology Innovation Industrial Park.	Siming District Cultural Development Office; Tong'an District Cultural Development Office; Xiang'an District Cultural Development Office; Xiamen Municipal Administration Group Co., Ltd.	Chen Zhongxin 13695027233 Luo Lan 0592-5722797 Zhou Yu 0592-6050510 Zhang Hongbo 15960378801 Liu Gang 0592-7023251 Yu Qingdong 0592-7886636 Chen Taiqing 13950076249
1.3	Creative Design Industry	Introduction of creative design enterprises in advertising services, industrial design, architectural design, fashion design, etc.; creative design brand activities and platform projects with international influence.	Siming Longshan Cultural & Creative Park, Shapowei Art West District; Huli Huamei Space, Strait Architectural Design Cultural & Creative Industry Park; Jimel Dulshan Art District; Haicang Gold Jewelry Industrial Park, Cangjiang Cultural and Sports Center, China (Xiamen) Intelligent Audio-Visual Industry Base Haicang Expansion Area; Tong'an New Town Area; Xiang'an New Town Area.	Siming District Cultural Development Office; Huli District Cultural Development Office; Haicang District Cultural Development Office; Jimel District Cultural Development Office; Tong'an District Cultural Development Office; Xiang'an District Cultural Development Office; Xiamen Municipal Administration Group Co., Ltd.	Chen Zhongxin 13695027233 Luo Lan 0592-5722797 Zhou Yu 0592-6050510 Zhang Hongbo 15960378801 Liu Gang 0592-7023251 Yu Qingdong 0592-7886636 Chen Taiqing 13950076249

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
1.4	Animation and Gaming Industry	Introduction of new game R&D enterprises based on digital technologies such as 5G, virtual reality, cloud games, AI, etc.; well-known e-sports festivals and exhibitions at home and abroad.	Phase I and Phase II of Siming Software Park, Guanyinshan Area; Phase III of Jimei Software Park; China (Xiamen) Intelligent Audio-Visual Industry Base Haicang Expansion Area; Xiang'an Southern Area Emerging Science and Technology Innovation Industrial Park.	Siming District Cultural Development Office; Huli District Cultural Development Office; Haicang District Cultural Development Office;	Chen Zhongxin 13695027233 Luo Lan 0592-5722797 Zhou Yu 0592-6050510 Zhang Hongbo 15960378601 Liu Gang 0592-7023251 Yu Qingdong 0592-7886636 Chen Taiqing 13950076249
1.5	Artwork Industry	Introduction of enterprises engaged in artwork creation and production, galleries, auction houses, art exhibitions, etc.; artwork financial service platform projects.	Huli Maritime Silk Road Artwork Center, Blanc Bonded Sharing Platform for Works of Art, Lingyun Jade Industrial Park; Haicang Gold Jewelry Industrial Park; Xiang'an New Town Area.	Jimei District Cultural Development Office; Tong'an District Cultural Development Office; Xiangan District Cultural Development Office;	
1.6	Music Industry	Introduction of enterprises engaged in digital music research and development, composition and recording, copyright trading, music brokerage, education and training, commercial performances, etc.; well-known music event activities at home and abroad.	Various cultural industry parks; Jimei Starkest Music Center; China (Xiamen) Intelligent Audio-Visual Industry Base Haicang Expansion Area	Xiamen Municipal Administration Group Co., Ltd.	
<b>2. Tourism</b>					
2.1	Core Tourist Attractions	Scenic areas, theme parks, tourist resorts, historic districts and characteristic towns.	Siming District Dongping Mountain Ecological Tourism Area; Maluan Bay Jimei Island; Maluan Bay West Coast Area; Maxuan Bay Xinyang Area; Haicang Banyue Island; Tong'an Bingzhou Island; Tong'an Tingxi Town; Xiang'an Xiangshan Area Xiang'an Liuwudian Ancient Street Area	Xiamen Municipal Bureau of Culture and Tourism	Wei Fei 0592-6371925
2.2	High-end Hotel Industry	High-end resort hotels, destination hotels and business hotels.	Siming District Lujiang Road, Huandao Road, Dacuoshan Area Huli District Eastern Industrial New City Jimei Central Vitality Zone Tong'an New City Area; Xiang'an Fengxiang New City Area		
2.3	Premium Shows	Live performing arts, on-site shows, masterpiece repertoires and festival shows.	Within the territory of Xiamen		
2.4	New Forms of Tourism Business	Cruise ships, yachts, sailboats, campgrounds, sea recreation experiencing and tourism consumption scenarios, and other related industries.	Within the territory of Xiamen		

No.	Project Name	Needs	Main Hosting Locations	Responsible Department	Contact
2.5	Scenic Area Renovation and Upgrading	Business form enhancement and project partners.	Amoy Bay Park, Shapowei, Huangcui; Horticulture Expo Garden; Tianzhu Mountain Scenic Area; Tong'an Film & TV City Scenic Area; Fantian Temple Scenic Area; Village Scenic Area Upgrading Project	Xiamen Municipal Bureau of Culture and Tourism	Wei Fei 0592-5371925
2.6	Fashion Consumption	Duty-free shopping, entertainment and leisure, hotel accommodation.	Xiang'an Airport Area	Xiamen Airport Area Headquarters	Wu Miaojin 15750786053
2.7	Culture Tourism & Leisure	Folk tourism, wellness vacations, and cultural experiences.	Xiang'an Airport Area	Xiamen Airport Area Headquarters	Wu Miaojin 15750786053

## Important Platforms

No.	Platform	Needs	Responsible Department	Contact
1	Xiamen Globally Important Aviation Maintenance Base	Enterprises and platforms engaged in component manufacturing, in-depth maintenance, aircraft material trading and distribution, business aircraft design and modification, aviation finance, personnel training, etc.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Huang Meihua 0592-2639627
2	Financial Leasing Platform	To bring in aircraft, ship, medical device, IC and other large equipment financial leasing and second-hand aircraft disposal industry-chain enterprises.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Gao Anni 0592-2621684
3	Cross-Border E-Commerce Platform	B2B, B2C, bonded stock for cross-border imports (1210) and retail exports (9610) and other cross-border e-commerce platforms and enterprises	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Lin Yufing 0592-2630020
4	National Cultural Export Base	To bring in enterprises in the fields of high-end artworks, creative design, film & TV and performing arts, digital content & new media, press publishing & distribution, etc.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Cai Qiang 0592-2621626
5	Imported Wine Platform	Imported wine enterprises and supporting service enterprises, and businesses related to world-famous spirits display and trading, wine-related professional training and recruitment, etc.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Guan Bin 0592-2630211 Li Peishan 0592-6065989

No.	Platform	Needs	Responsible Department	Contact
6	Gold Jewelry Platform	To bring in enterprises in the fields of gold jewelry processing, testing, display, wholesale, trading, etc.; finance, retail, logistics, design, education, and other forms of business.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Chen Chen 0592-6892087
7	Electromechanical Equipment Platform	To bring in electromechanical industry-chain enterprises, and supporting service enterprises.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Guan Bin 0592-2630211
6	Bird's Nest Platform	Introduction of enterprises in the industry chain of processing and R&D of bird's nest products and related tonic categories, as well as organizations in professional fields such as industry associations, industry tourism, industry standard setting and safety testing.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Zhang Jin 0592-6892770
9	Xiamen International Aquatic Product Trading Platform	Coordinate with the planning of the fishing port area to explore diversified development of the fishing port economy. Extend the industrial chain based on aquatic product trading and explore the introduction of related industries. Continuously introduce high-quality enterprises and well-known brands to settle in.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Dai Qingqin 0592-2616910
10	IC Mass Innovation & Entrepreneurship Platform of Xiamen Area of Fujian Pilot Free Trade Zone	AI-related IC R&D and design and IP R&D, EDA development services, key laboratories, etc., and international top-notch IC professionals and teams.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Lin Mufei 18605956664
11	Xiamen Cross-Strait Innovation, Creativity & Entrepreneurship Base Platform	Enterprise intelligent services, cross-border e-commerce, biomedicine creative design, new materials, intelligent hardware, drones, intelligent robots, biomedicine, Taiwan youth innovation and entrepreneurship incubation, etc.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Lin Ying 0592-2621659
12	China-Europe (Xiamen) Freight Train Service Platform	International trade agents, sea-rail multimodal transportation, door-to-door transportation, global consolidation and distribution, professional customs clearance, and warehousing support trade service enterprises.	Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone	Zhang Jin 0592-6892770
13	Airport Comprehensive Bonded Area	Aviation department accessory maintenance, intelligent manufacturing, air logistics, cross-border e-commerce, business office, low-altitude economy, unmanned driving, and related upstream and downstream supporting industries.	Xiamen Airport Area Headquarters; Administrative Committee of Xiamen Area of Fujian Pilot Free Trade Zone Xiamen Iport Group	Lin Huimin 18006902760 Xiao Changyuan 18030087833
14	BRICS Intelligent Manufacturing Center	New energy, new materials, high-end equipment manufacturing, new-generation IT and other intelligent manufacturing projects.	Tongxiang High-Tech Town Construction Headquarters	Zhong Kaiwei 13860197493

No.	Platform	Needs	Responsible Department	Contact
15	BRICS Future Innovation Center	Enterprises engaged in the industrial Internet, export of smart city applications, technology output service of the new energy industry, new industrial skills service, cross-border e-commerce, etc.	Torch High-Tech Zone Administrative Committee	Lin Yuanjun 13616046537 Lin Yuhua 13860466577
16	Xiamen Intelligent Sensors and IoT Innovation Base	Introduce upstream and downstream industries and enterprises in the fields of intelligent manufacturing, automotive electronics, the marine economy, consumer electronics and emergency security, focusing on intelligent sensors, IoT, AI, industrial simulation, IC, IC design and packaging, modules, IoT application integration, big data software and services, as well as testing and inspection.	Torch High-Tech Zone Administrative Committee	Lian Jie 15959206395
17	Xiamen Area of Fujian Provincial AI Industrial Park	Big data, cloud computing, smart city industry applications and other enterprises.	Torch High-Tech Zone Administrative Committee Xiamen Information Group Co., Ltd.	Lin Yuanjun 13616046537 Lin Yuhua 13860466577
18	Xiamen Software Park Phase I	High-quality enterprises in the software and information service industries and related supporting industries such as artificial intelligence, metaverse, big data, film and television cultural creativity, digital creativity, and venture capital.	Torch High-Tech Zone Administrative Committee	Xie Yuchen 15959208915
19	Xiamen Software Park Phases II and III	Introduction of enterprises in the Internet fields, such as the digital cultural and creative industries and animation; in the industry application development fields, such as smart cities; in the emerging digital fields, such as big data, AI, cloud computing, blockchain and 5G applications; and in the key technology fields, such as industrial software and basic software.	Torch High-Tech Zone Administrative Committee; Xiamen Information Group Co., Ltd.	Lin Yuanjun 13616046537 Lin Yuhua 13860466577
20	Xiamen IT Application Innovation Institute	Partners for compatibility certification testing of domestic software and hardware products, as well as professional talent training.	Torch High-Tech Zone Administrative Committee	Tian Yingpeng 0592-5380192
21	Tongxiang High-Tech New Town	High-tech industry projects in next-generation information technology, new energy, new materials, high-end equipment manufacturing, integrated circuits, display panels, and microelectronics; Upstream and downstream enterprises in the industrial chain to settle in by utilizing general-purpose factory buildings.	Tongxiang High-Tech Town Construction Headquarters	Zhong Kaiwei 13860197493
22	Xiamen Torch Metaverse Incubator and Accelerator	Enterprises and platform projects in the metaverse field, including interactive technology, blockchain technology, artificial intelligence technology, intelligent network technology, and digital twin technology; A robust metaverse industry ecosystem and a specialized metaverse industrial park.	Torch High-Tech Zone Administrative Committee	Que Yangcai 18559776889
23	Maluan Bay Smart Sci-Tech Industrial Park	Developing high-level regional headquarters, AI technology applications, software and information services, 5G equipment and applications, as well as advanced industrial Internet, high-end intelligent manufacturing and other industrial projects.	Torch High-Tech Zone Administrative Committee; Xiamen Information Group Co., Ltd.	Lin Yuanjun 13616046537 Lin Yuhua 13860466577

No.	Platform	Needs	Responsible Department	Contact
24	Xiamen Semiconductor Research Institute	Research and market development of key common technologies and industrialization technologies.	Torch High-Tech Zone Administrative Committee	Tian Yingpeng 0592-5380192
25	Xiamen National Advanced Electric Drive Technology Center for New-Energy Vehicles	Carry out technology development, talent and project introduction, experiments, tests and other work in the field of automotive standards-grade power semiconductors, motor electric controls, etc., with a focus on advanced electric drive technology.	Torch High-Tech Zone Administrative Committee	Tian Yingpeng 0592-5380192
26	Xiamen Science City II Incubator (Xiamen University Science Park Xiang'an Zone)	Future industrial fields such as hydrogen energy and energy storage, genetics and biotechnology, and third-generation semiconductors, with the core of serving the transformation of scientific and technological achievements and technology transfer, dedicated to creating a leading benchmark incubator for Xiamen Science City.	Xiamen Science and Technology Industrial Group	Song Xinyu 15160012680
27	Information Technology Industrial Park	Key industry development types: Electronics, optoelectronics, software and information services, biopharmaceuticals, advanced manufacturing, and other next-generation information technology industries.	Torch High-Tech Zone Administrative Committee	Song Xinyu 15160012680
28	Xiamen Smart Agriculture Industrial Park	Key introductions: Enterprises (units) that provide software service platforms for the informatization, automation, and intelligence of the agricultural industry; enterprises (units) engaged in the application industry of digital + agriculture, digital + agricultural machinery, and other fields; enterprises (units) that empower agricultural infrastructure and basic tools, and innovate design and integrate automation and platform functions; software or information technology services for planning, broadcasting, and technical support for various large-scale agricultural exhibitions; institutions, associations, etc., that provide relevant professional services for the agricultural industry.	Xiamen Information Group Co., Ltd.	Lin Yuanjun 13616046537
29	Maritime Silk Road Central Legal District (Siming Demonstration Zone)	Introduce enterprises and platforms of lawyer services, arbitration services, legal technology, legal media, legal training, etc.; attract high-level prestigious law firms; gather notary institutions, judicial appraisal institutions, legal media, legal technology companies, etc.; and bring in international, national and southwest Fujian legal forums and symposia.	Siming District Political and Legal Affairs Commission	Wen Shupeng 18950802120
30	North Hubin Road Super Headquarters Base	Enterprises that meet one of the following conditions as specified in the "Xiamen Super Headquarters Land Management Opinions" (Xia Fa Gai Service [2019] No. 438): (1) Fortune Global 500 companies, China Top 500 Enterprises, China Top 500 Service Enterprises; (2) Central enterprises managed by the State-owned Assets Supervision and Administration Commission of the State Council; (3) Leading domestic enterprises (with annual revenue of not less than 10 billion yuan in the previous year) or top ten domestic enterprises in the industry.	Siming District Bureau of Reform & Development	Cai Junjian 13859996576

No.	Platform	Needs	Responsible Department	Contact
31	Core Area of Xiamen International Business District	High-level, headquarters-type, industry-guiding fund participation or industry-leading, key supporting enterprises that complement, strengthen, and extend the industrial chain.	Xiamen Huaxi Luzhou Investment Development Co., Ltd.	Yu Qingxiang 15959370745
32	Siming District Health Industry Building (Caizi Hui Building)	Major health enterprises such as biomedicine, health food, smart healthcare, and medical services.	Xiamen Caizi Investment Co., Ltd.	Zhang Qingmiao 15892070860
33	Siming District Platform Digital Economy Innovation Center	Enterprises and platforms in the human resources industry and the human resources digital economy industry.	Jialian Subdistrict, Siming District	Cai Weizhen 18150117169
34	Big Data Open Application (Xiamen) Subcenter of National Information Center	Enterprises in big data innovation, innovation and application of supply chain financial services, data innovation services, etc.	Torch High-Tech Zone Administrative Committee; Siming District Bureau of Science, Technology and Information; Xiamen Information Group Co., Ltd.	Lin Yuanjun 13616046537 Lin Yuhua 13860466577 Huang Qilan 13559286863
35	Siming Portman Fund Agglomeration Area	The project has a planned floor area of approximately 12,000 square meters. It aims to introduce equity investment mother funds with equity investment enterprises as investment targets, direct investment subsidiaries established by financial institutions such as banks, securities companies, insurance companies, trust companies and public offering fund management companies, employee shareholding investment platform enterprises, as well as various fund enterprises primarily focusing on private securities investment funds.	Xiamen Metro Asset Operation & Management Co., Ltd.	Liu Yuncal 15985832391
36	Tefang Portman Fortune Center - Fujian Cross-Strait Youth Employment & Entrepreneurship Center	The project has a planned floor area of approximately 11,000 square meters. It aims to introduce enterprises and platform projects related to film & TV technology, production, promotion and release, IP conversion, script writing, film screening, industry exchange, business matchmaking, talent cultivation, cultural investment, etc.	Xiamen Metro Asset Operation & Management Co., Ltd.	Liu Yuncal 15985832391
37	Huli Innovation Park	Corporate headquarters, product display centers, enterprise science and technology research and development bases, as well as science and technology, creative services and other projects.	Administrative Committee of Huli District Industrial Park	Shao Xinxin 13860168155 Wu Yunshuo 0592-5761295
38	Xiamen International Cruise City	Cruise hubs (terminal buildings), tourism, business offices, and cultural and creative enterprises.	Huli District; Huli Sub-district Offices	Yan Yi 0592-2630657
39	Free Trade Huli Platform Economy Industrial Park	Flexible employment platforms for the sharing economy.	Huli District Bureau of Commerce	Liu Hongda 0592-5726039

No.	Platform	Needs	Responsible Department	Contact
40	Aerospace Human Resources Industrial Park	Technology-based companies, leading companies, military-industrial enterprises, innovative enterprises, and specially enterprises in the human resources industry to create a digital and intelligent human resources platform, forming a human resources industry development platform with unique aerospace and military-industrial characteristics.	Huli District Bureau of Commerce	Liu Shengwan 0592-5722036
41	Gudishi Fund Town	Located in the core area of the cross-strait financial center, with comprehensive business facilities, it is a rare low-density waterfront courtyard-style garden business complex in the financial district. It focuses on introducing private equity, securities fund managers to set up offices, and the registration of private equity, venture capital, and fund of funds.	Xiamen Gudishi Fund Town ; Operation Management Co., Ltd. ; Huli District Finance Bureau	Hong Junjie 13696936385 Yao Meifang 0592-5722280
42	BRICS PartNIR Innovation Headquarters	The BRICS PartNIR Innovation Headquarters Project of China General Technology Group, located at the southwest corner of the intersection of Huandao East Road and Wulin Road in the Wutong-Gaolin area of Huli District, covers a land area of 29,600 square meters and has a total construction area of 352,000 square meters. The project will focus on technology, culture, trade, and modern service industries, creating a "BRICS+" new industrial revolution industry innovation leading hub, a BRICS emerging market global influence amplifier, and a new platform for BRICS international cooperation.	Huli District Bureau of Commerce	Ke Yanmei 0592-5722782
43	Tan Kah Kee Innovation Laboratory - Science and Technology Innovation Industry (Huli) Accelerator	Facing the needs of national energy strategy and future industrial development, progressively layout technology industrialization R&D projects in directions and fields such as new energy, new materials, semiconductors, and instrumentation equipment. Conduct project cooperation and technology transfer in multiple modes, and improve the sustainable development investment model that combines "fiscal funding + social capital".	Tan Kah Kee Innovation Lab	Wu Yan 18950118116
44	BRICS Digital Industrial Intelligence Valley	Focus on introducing emerging industry clusters such as the Internet of Things, intelligent manufacturing and robotics, communication equipment, operating systems and industrial software, integrated circuits, high-end intelligent manufacturing, high-end equipment manufacturing, digital creative technology equipment, big data, cloud computing, and artificial intelligence. It is planned to be the core area of the BRICS PartNIR Innovation Base, creating a first-class BRICS Digital Industrial Intelligence Valley in the country.	Xiamen Huli District Bureau of Industry & IT	Xiao Yachi 13599503801

No.	Platform	Needs	Responsible Department	Contact
45	Cross-Strait IC Industrial Park	Comprising six industrial functional areas: a bonded IC product trading center, a product R&D and design test center, the Cross-Strait (Xiamen) Micro and Nano Electronics Research Institute, IC crowdsourcing space, an IC design business incubator in the free trade zone, an IC industry talent training center.	Xiamen Huli District Bureau of Industry & IT; Administrative Committee of Huli District Industrial Park	Shao Xinxin 13860166155
46	Huli Digital Industry Science Innovation Park	Enterprises in industrial design, information security, digital cultural & creative industries, smart city and industry applications, IoT, big data, cloud computing, AI and other fields.	Administrative Committee of Huli District Industrial Park; Huli District Bureau of Industry & IT; Huli District Bureau of Commerce	Shao Xinxin 13860166155 Yu Lixia 0592-5726297
47	Special Zone 1980 Huli Creative Industrial Park	Creative industries such as creative design, digital content and new media, film & TV, animation and gaming, cultural and leisure tourism, etc.	Huli District Huli Sub-district Offices	Yan Yi 0592-2630657
48	Smart Transport Industrial Park	Platform projects such as car hailing, network freight, driverless, intelligent transportation, etc.	Huli District Bureau of Commerce	Ma Huiyu 0592-5725138
49	China (Xiamen) Intelligent Audio-Visual Industry Base	Web audiovisual content audit, copyright trading, education and training, product promotion and release, industry exchange, cloud rendering infrastructure, and financial services.	China (Xiamen) Intelligent Audio-Visual Industry Base; Xiamen Information Group Co., Ltd.	Zhang Hongbo 15960378801 Lin Xiaoying 13459254104 Lin Yuanjun 13616046537 Lin Yuhua 13860466577
50	Xinglin Bay Fund Agglomeration Zone	Located in Xinglin Bay Business Operation Center, the 7028 m <sup>2</sup> fully renovated office space is driven by the dual engines of "fund + base," attracting various private equity investment enterprises and private securities investment enterprises, creating a win-win symbiotic ecosystem. It is Xiamen's first fund cluster area and the first regional financial service city-level "talent station."	Xiamen Jimel District Industry Investment Co., Ltd.	Zhou Xiaorong 15159229160
51	R&D buildings B20 and B21 in Software Park Phase III	Project address: The two R&D buildings B20 and B21 in Software Park Phase III are located at No. 63 and No. 65 Chengyi North Avenue, Jimel District, with a total of 168 units. Investment directions: electronic information industry cluster, cultural tourism and creativity, e-commerce (food, beauty, etc.), new retail and other industries, six future industries, etc.	Xiamen Jimel District Industry Investment Co., Ltd.	Lan Dongchuan 0592-6271009
52	Anren Industrial Park	The fields of the settled enterprises are positioned as electronic information industry clusters; mechanical equipment industry clusters; medical devices; new energy; hydrogen energy and energy storage; deep-sea and aerospace development.	Jimel Development Group	Xu Weijing 13400795679

No.	Platform	Needs	Responsible Department	Contact
53	Jimei Eastern New City BRICS Specialized and New "Little Giant" Industrial Park	Total land area: 25.3 hectares. Build a technology business incubator with prominent BRICS elements, explore the BRICS path for enterprises' scientific and technological achievements, technologies, and products to "go global"; attract and cultivate top talent teams, new R&D institutions, proof-of-concept centers, pilot test platforms, and benchmark incubators. Create a park that integrates new industry functions such as research and development, creativity, design, pilot testing, and pollution-free production, along with related supporting services.	Jimei District Qiaoying Subdistrict Office	Hu Peng 15060787005
54	Haicang Semiconductor Industry Base	Xiamen Haicang Semiconductor Industry Base is located in the southern Haicang Information Industry Park, between the Haicang residential area and the Haicang Port New City residential area. The base includes the construction of two 11-story R&D office buildings, six high-standard pilot plant buildings with floor heights of 6 to 8 meters, and related ancillary support buildings, with a total construction area of approximately 137,800 square meters. As one of the few pilot parks with pilot testing, research and development, and small-scale production capabilities in the country, it has currently attracted over 20 key enterprises in the integrated circuit industry chain. Key investment directions: pan-semiconductor industry, specialty process wafer manufacturing, integrated circuit design, integrated circuit packaging and testing and packaging substrates, integrated circuit equipment and materials, third-generation semiconductors, terminal applications, and other industrial projects.	Xiamen Haicang Information Industry Development Co., Ltd.	Lai Zhiwei 18250867242
55	Xiamen Biopharmaceutical Port	Enterprises and institutions engaged in R&D, production, distribution and technical services for medicines, medical devices, cosmetic products and supporting core components and key raw materials for the industry.	Xiamen Haicang Biotechnology Development Co., Ltd.	Lin Zhiqin 15959366100
56	General-purpose workshops for Xiamen Biopharmaceutical Port (Phase V)	The project is financed and built by the Biomedical Industry Platform Company to introduce enterprises and institutions engaged in R&D, production, distribution and technical services for medicines, medical devices, and supporting core components and key raw materials for the industry.	Xiamen Haicang Biotechnology Development Co., Ltd.	Lin Zhiqin 15959366100
57	Xiamen Biomedicine Innovation Park	Biomedical innovation and research centers, regional operation headquarters and other enterprises.	Xiamen Maluan Bay New Town Construction Headquarters	Fang Qixiang 13799738376
58	Digital Human Resources Industry Park	Enterprises in the human resources industry and the human resources digital economy industry to provide integrated talent management services for multi-scenario human resources, and provide labor, tax, and financial services for upstream and downstream enterprises.	Haicang District Bureau of Human Resources and Social Security.	Su Peng 13616038910

No.	Platform	Needs	Responsible Department	Contact
59	Haicang Bay Fund Agglomeration Zone	Planned building area: approximately 3,000 square meters. The primary focus is on the development of equity investment funds, while also attracting financial, legal, guarantee, and consulting intermediary institutions to settle in the town. Through market mechanisms and government initiatives, the aim is to enhance the capital market's service to the real economy. This will create a dynamic positive feedback loop between the financial sector and the industrial sector, ultimately forming a new development ecosystem in Haicang where finance drives industrial upgrading and industry promotes financial agglomeration.	Haicang District Financial Services Office	Wang Zuwei 0592-6050766
60	Xiamen Science City (Meifeng-Xike Area)	Modern service industry projects, such as headquarters economy, information services, R&D and design, cultural and creative industries, and fintech services; industries in the emerging economic fields, such as internet and modern IT services, modern technology services and innovation and entrepreneurship services, modern productive service activities, new lifestyle service activities, and modern comprehensive management activities.	Tong'an District Bureau of Industry & IT	Su Xiaoqing 0592-7558665
61	TIB Biotech Park	Biomedicine, high-end medical devices, health equipment, health management services and other industries.	Tong'an District Bureau of Industry & IT	Lin Yuchan 0592-7558669
62	Uni Sci-Tech Park	IC-related industries with IC R&D as the core.	Tong'an District Bureau of Industry & IT	Chen Jingwei 0592-7558661
63	Ivy Sci-Tech Park	Modern service industry enterprises integrated into cross-border e-commerce, the digital economy and the headquarters economy and other new-economy industries.	Tong'an District Bureau of Industry & IT	Chen Jingwei 0592-7558661
64	Silver City Intelligent Valley	Headquarters economy, information services, R&D and design, cultural and creative industries, financial business services and other modern service industry projects.	Xiamen Urban Construction & Development Investment Co., Ltd.	Wei Lai 18606090531
65	Meifeng Creative Valley	Emerging industries such as software information, the Internet of Things, healthcare, cybersecurity and big data, and artificial intelligence.	Xiamen Torch Group Co., Ltd.	Zhang Jing 13950138825
66	East Sea Rim Cloud Valley (New Economy Industrial Park)	Total construction area: approximately 600,000 square meters. The aim is to create a hub for the digital economy, new finance, cross-border trade in services, and the rail transit industry. Lots 1 and Plot 5 will be built into customized office park and industrial service supporting area with a floor area of about 180,000 square meters, which can be used as industrial service platform, laboratory, research institute and transformation center of Xiamen Science City.	Xiamen Metro New Economy Industrial Park Operation Co., Ltd.	Li Gulping 13950008601

No.	Platform	Needs	Responsible Department	Contact
67	East Sea Rim Cloud Valley (New Economy Industrial Park Lot 1 & Lot 5 Customized Office Park)	Lots 1 and Plot 5 will be built into customized office park and industrial service supporting area with a floor area of about 180,000 square meters, which can be used as industrial service platform, laboratory, research institute and transformation center of Xiamen Science City.	Xiamen Metro New Economy Industrial Park Operation Co., Ltd.	Li Gulping 13950008601
68	Digital Economy Industrial Park	Digital economy industries, such as AI, intelligent manufacturing, IC, software technology, medical big data, IoT, cloud computing, network communications, information security, virtual reality and satellite application technology, as well as strategic emerging industries accredited as high-tech and having good growth prospects	Xiang'an District Bureau of Industry & IT	Chen Chunlin 13950119513
69	Dongshan Commercial Complex	With a planned area of 61 mu, the project is intended to be a one-stop full-service urban complex comprising retail, catering, support and entertainment facilities and hosting experiential businesses	Xiang'an District Bureau of Industry & IT	Sun Xiongzheng 18850548086
70	Healthy Xiang'an Intelligent Valley	Healthcare intelligent equipment, medical information services and security, precision medicine, health services, biomedicine and other big health data industry projects	Xiang'an District Bureau of Health	Xiaolin 0592-7889655
71	Xiamen Marine High-Tech Industrial Park	Marine high-end equipment manufacturing, materials industry, biomedicine, modern fisheries, port logistics, coastal leisure tourism, IT consulting services and other enterprises and platforms	Xiang'an District Bureau of Industry & IT	Chen Huipeng 18259120495
72	Xiang'an Innovation Lab (Bioproduct Science & Technology Fujian Innovation Lab)	Located on the south side of Xiamen University's Xiang'an Campus, the lab will focus on four areas of research: fundamental science of bioproducts, underlying technology and core raw materials of bioproducts, applied technology and prototype products of bioproducts, and conversion technology and public services of bioproducts. The lab will be dedicated to the fundamental research, technology breakthroughs, product RD&, and quality and standard systems of bioproducts. The lab aims to address a few problems in the fundamental research of bioproducts in China, such as lack of in-depth fundamental research, the low level of underlying technology assurance, lack of application technology leadership, and inadequate service capacity for conversion technology.	Xiang'an District Bureau of Industry & IT	Chen Huipeng 18259120495
73	Xiamen Joint Respiratory Health Research Institute	This institute will focus on three areas of research: respiratory health, microbial health, and digital health. It will be dedicated to the breakthroughs for key common technologies in the fields of biomedicine and health, as well as the R&D, industrialization and incubation of innovative drugs. The institute will comprise cutting-edge research, technology R&D and results conversion.	Xiamen Joint Respiratory Health Research Institute	Luo Jia 18702089871

No.	Platform	Needs	Responsible Department	Contact
74	Xiang'an New Town Area	Priority is given to the introduction of high-end projects in the value chain of film & TV culture industry to build a film & TV culture industry cluster, introduction of sports industry projects to build a sports industry cluster, introduction of exhibition industry projects to build an exhibition industry cluster, headquarters economy, cultural and creative tourism, consumer commerce, commercial complexes for future industry scene applications, introduction of high-end accommodation, resort hotels, destination hotels, business hotel projects	Xiang'an New Town Area Headquarters	Lin Jiabin 19559229058
75	Xiang'an Southern Area	Key areas of focus include hydrogen energy and energy storage, semiconductors, cultural exchange centers, scientific research and business offices, medical and aesthetic medicine, innovation communities, corporate clubs, hotel business, living facilities, aviation, electronic information, modern service industries, etc.	Xiang'an District Southern Area Development and Construction Headquarters, and Xiang'an District Bureau of Industry & IT	Mao Shengpeng 0592-5551190 Lu Cuiqing 0592-7886078
76	Private Equity Fund Agglomeration Area	Private equity investment funds, private securities investment funds and their management institutions, along with supporting financial innovation service ecosystem enterprises.	Xiamen Municipal Financial Office	Lin Huiwen 0592-2853813
77	Southern Marine Entrepreneurial Innovation Center	Sea-related entrepreneurial innovation teams and start-up sea-related small and micro enterprises, providing them with professional "move-in" services	Xiamen Municipal Bureau of Ocean Development	Lin Zhipeng 0592-5108310
78	Xiamen Urban Aquatic Seeding Industrial Park	The preliminary planning of Xiamen Urban Aquatic Seeding Industrial Park has been completed, and the current work is in refining the plan, developing the conditions for entry, promoting custom investment and selecting the site for drainage.	Xiamen Municipal Bureau of Ocean Development	Hong Qianxu 0592-2853912
79	Fujian-Taiwan Agricultural Integrated Development (Seed & Seedling) Industrial Park, Tong'an District, Xiamen	Cross-Strait fruit and vegetable seedling enterprises and platforms; seeds and seedling enterprises	Xiamen Municipal Bureau of Agriculture & Rural Affairs	Li Xinbo 13906002679
80	Xiamen Olympic Sports Center	Centered around the Xiamen Olympic Sports Center, actively host high-level international and domestic sports events such as the World Athletics Diamond League and the Sudirman Cup World Mixed Team Badminton Championships. Additionally, the operating unit, China Resources Cultural and Sports Company, is actively introducing various cultural and sports activities to stimulate the local economy. In terms of serving public fitness needs, outdoor tennis, basketball, badminton, and table tennis courts, as well as the White Dolphin Swimming Pool, will be gradually opened based on actual conditions.	Xiamen Municipal Bureau of Sports	Duan Yu 13276967779

No.	Platform	Needs	Responsible Department	Contact
81	Digital Sports Industrial Park	To attract a number of digital sports enterprises to create a Digital Sports Industrial Park in the Phase III Software Park in Jimei District. Plans include establishing a digital sports exhibition hall that integrates a showroom, interaction, and experience. Using the industrial park as a platform, introduce digital sports technologies such as big data, VR, 5G, and artificial intelligence to promote the digital sports industry ecosystem.	Xiamen Municipal Bureau of Sports	Duan Yu 13276967779
82	Future Industry Sub-park of Xiamen Science and Technology Park (Advanced Manufacturing Park)	The current planned construction area of the project is approximately 170,000 square meters. It focuses on attracting emerging industries such as new energy, new materials, semiconductors, and intelligent manufacturing. The aim is to provide a landing platform for high-tech, high-growth, and high-value-added enterprises, as well as the industrialization of major scientific and technological achievements, creating a distinctive high-tech industrial park within Xiamen Science City.	Xiamen Light Industry Group Park Operation Co., Ltd.	Zhu Huawei 13860436570
83	Sanquan New Energy Industrial Park	The project currently has a planned construction area of approximately 100,000 square meters. It focuses on expanding businesses such as energy storage lithium batteries and sodium-ion materials, and attracting strategic emerging industry projects in new energy and new materials. The goal is to create a new energy and new materials industrial park with a distinctive light industry character.	Xiamen Light Industry Group Park Operation Co., Ltd.	Zhu Huawei 13860436570
84	Light Industry Video Industry Park	The project currently has a planned construction area of approximately 148,000 square meters. It focuses on attracting high-quality enterprises in eyeglass manufacturing, vision technology, and related upstream and downstream industries, aiming to create an intelligent manufacturing base and development service platform for the eyewear and visual technology industry.	Xiamen Light Industry Group Park Operation Co., Ltd.	Zhu Huawei 13860436570
85	Xiamen CCRE Intelligent Manufacturing Industrial Park	High-end equipment, new energy and new materials, electronic information, and their upstream and downstream supporting industries.	Xiamen CCRE Park Development Co., Ltd.	Fan Lingbo 13860125346
86	Xiamen CCRE Building/Qixing Building	New energy, high-end equipment industry R&D, marketing headquarters center/technology innovation enterprise operation center.	Xiamen CCRE Park Development Co., Ltd.	Liu Yafei 13950106399
87	Xiamen International Innovation Smart Industrial Park	The project mainly focuses on modern service industries, commercial logistics, supply chain, cross-border e-commerce, live-streaming e-commerce, shipping logistics, financial services, smart cities, technological innovation, and other new productivity and strategic emerging industry enterprises, while simultaneously introducing related commercial supporting businesses.	Xiamen Municipal Investment Co., Ltd.	Wu Kai 13255065590

No.	Platform	Needs	Responsible Department	Contact
88	Xiang'an Southern Area Emerging Science and Technology Innovation Industrial Park	Focus on developing the "4+3" industrial system, which is based on four pillar industries: aviation, green energy and new materials, life and health, and next-generation information technology, supplemented by modern service industries including cultural creativity, financial services, and technological services, to create a source of scientific and technological innovation in the Bay Area. In accordance with the "14th Five-Year Plan" for industrial development in the urban area, key industries to be introduced and developed include the Internet of Things, intelligent manufacturing and robotics, communication equipment, operating systems and industrial software, integrated circuit design, digital creative technology equipment, big data, cloud computing, and artificial intelligence.	Xiamen Municipal Baoyu Investment & Development Co., Ltd.	Chen Taiqing 13950076249
89	Xiamen Comprehensive Aviation Training Base	Enterprises and projects for headquarters offices, airport industry offices, hotel apartments, education and training, and conferences and exhibitions.	Xiamen Airport Area Headquarters; Xiamen Iport Group	Xiao Changyuan 18030087833
90	AmoyDx Aviation Industrial Park	To attract upstream and downstream enterprises and projects in the aviation maintenance industry chain. Focus on the layout of aviation components and auxiliary products design and manufacturing, airport-related industries, and high-tech research and development and manufacturing sectors.	Xiamen Aviation Industry Co., Ltd.	Xie Han 18205900281
91	Xiamen International Aviation Materials Center	To attract industry projects such as aviation component repair and manufacturing, engine services, landing gear services, bonded warehousing, aviation materials supply chain, and aviation talent training. Simultaneously, develop diversified industries including high-tech research and development and high-end manufacturing.	Xiamen Aviation Industry Co., Ltd.	Xie Han 18205900281
92	Xiang'an Southern B Area Future Industrial Science and Technology Park Phase I	To attract industries in biopharmaceuticals, new energy, and new materials, along with their upstream and downstream supporting industries. Develop airport-related offices, headquarters offices, supporting commercial facilities, and high-tech research and development.	Xiangjutou Technology Development Co., Ltd.	Chai Jian 15359355886
93	Xiamen Auto City	To attract automobile-related industries, including car exhibitions, parts supply, repair and detailing, automotive culture promotion, and automotive service support.	Xiamen Iport Group	Shen Zhanlin 15859219193
94	Strait New Coast	To attract enterprises and projects in digital content and new media, cultural leisure tourism and commerce, business offices, conferences and exhibitions, and dockside sightseeing.	Xiamen Iport Group	Zhou Xiaoping 13625000425

4	Haicang South Avenue (Maqing Road – Cangjiang Road) Enhancement Project	<p>Located in Haicang Waterfront New Town, the project starts from the existing Maqing Road and ends at the planned Cangjiang Road, spanning 3.63 km. Work involves upgrading and renovating the section between Maqing Road to West Jiangang Road, and building a new section between West Jiangang Road and Cangjiang Road: Among which 1. The renovation section will start from Maqing Road and end at Jiangang West Road, spanning 2.63 km. The existing road will be upgraded into an urban express road 60 m wide by building a new viaduct and renovating the existing ground auxiliary road. The 2.47km viaduct will be bidirectional with 6 lanes (4 lanes on the section between Jiaosong Road to West Jiangang Road) and have a width of 19-26.5 m. The ground auxiliary road will be bidirectional with 6 lanes. The Maqing Road and Jiaosong Road interchanges will be upgraded too, and a 5.2km ramp will be built. 2. The new section will start from West Jiangang Road and end at Cang Jiang Road, stretching 1 km. It will be built according to the standards of urban express roads and have a width of 41 m. The viaduct will be 0.88 km long, bidirectional with 4 lanes, and 19 m wide; the ground auxiliary road will also be bidirectional with 4 lanes; and a new interchange will be built on Cangjiang Road.</p>	Haicang Waterfront New Town	Xiamen Municipal Highway Affairs Development Center	Huang Canbiao 0592-2999213
5	Huli District Carpark Project	<p>Located in Huli District. It is proposed to package the parking lot in Huli District and introduce social capital to jointly participate in the cooperative development and operation of the project. The carpark will be included in Huli's parking network under overall planning, development and operation.</p>	Huli District	Huli District Bureau of Housing & Construction	Jiang Yuan 18205926761
